

Contents

1	Molecular Basis of Morphogenesis in Fungi	1
	Steven D. Harris	
2	Tropic Orientation Responses of Pathogenic Fungi	21
	Alexandra Brand and Neil A.R. Gow	
3	Hyphal Fusion	43
	André Fleißner	
4	Signaling of Infectious Growth in <i>Fusarium oxysporum</i>	61
	Elena Pérez-Nadales and Antonio Di Pietro	
5	Integrating Cdk Signaling in <i>Candida albicans</i> Environmental Sensing Networks	81
	Carlos R. Vázquez de Aldana and Jaime Correa-Bordes	
6	Cell Cycle and Morphogenesis Connections During the Formation of the Infective Filament in <i>Ustilago maydis</i>	97
	José Pérez-Martín	
7	Appressorium Function in <i>Colletotrichum orbiculare</i> and Prospect for Genome Based Analysis	115
	Yasuyuki Kubo	
8	Morphogenesis in <i>Candida albicans</i>: How to Stay Focused	133
	Martine Bassilana and Peter Follette	
9	Morphogenesis in <i>Paracoccidioides brasiliensis</i>	163
	Iran Malavazi and Gustavo Henrique Goldman	

10 Morphogenesis of *Cryptococcus neoformans* 197
Elizabeth R. Ballou, J. Andrew Alspaugh, and Connie B. Nichols

11 Morphogenesis and Infection in *Botrytis cinerea* 225
Julia Schumacher and Paul Tudzynski

**12 Morphogenesis, Growth, and Development of the Grass
Symbiont *Epichl e festucae*** 243
Barry Scott, Yvonne Becker, Matthias Becker, and Gemma Cartwright

13 *Cryptococcus*–Neutrophil Interaction 265
Asfia Qureshi and Maurizio Del Poeta

Index 281

Morphogenesis and Pathogenicity in Fungi

Pérez Martín, J.; Di Pietro, A. (Eds.)

2012, XIV, 286 p., Hardcover

ISBN: 978-3-642-22915-2
