

Contents

- 1 Fundamentals of Biosignals** 1
 - 1.1 Definition and Model of Biosignals 1
 - 1.2 Historical Aspects 6
 - 1.2.1 The Very First Biosignals 6
 - 1.2.2 Problems and Solutions 11
 - 1.3 Classification of Biosignals 15
 - 1.4 Trends in Biosignals Monitoring 19
 - References 25
- 2 Physiological and Functional Basis** 27
 - 2.1 Cell 27
 - 2.1.1 Functional Structures 27
 - 2.1.2 Cell Membrane 36
 - 2.1.2.1 Passive Properties 37
 - Transport of Substances 37
 - Transport of Potential Difference 41
 - 2.1.2.2 Active Mechanisms 49
 - Regulatory Mechanisms 49
 - Active Transport 53
 - 2.1.3 Cell Membrane Potential 55
 - 2.1.3.1 Quiescent Cell 56
 - 2.1.3.2 Excited Cell 62
 - Cell Stimulation 63
 - Cell Response 65
 - Response to Different Stimuli 71
 - 2.1.4 Propagation of Excitation 74
 - 2.1.4.1 Axon Propagation 74
 - 2.1.4.2 Synaptic Propagation 81

2.2	Neurons and Receptors	89
2.2.1	Structure	90
2.2.2	Function	96
2.3	Muscle	107
2.3.1	Structure	108
2.3.2	Function	113
2.4	Heart	121
2.4.1	Structure	121
2.4.2	Function	125
2.5	Circulatory System	133
2.5.1	Functional Structure	134
2.5.2	Phenomena	142
2.5.2.1	Arterial Behavior	142
2.5.2.2	Steady Flow	144
2.5.2.3	Pulsatile Flow	147
	Pulse Propagation	147
	Blood Pressure and Flow	151
	Pulse Waveforms of Pressure and Flow	159
	Reflected Pulse Propagation	163
2.6	Respiratory System	173
2.6.1	Structure	173
2.6.2	Function	175
	References	180
3	Physiological Phenomena and Biosignals	183
3.1	Vital Phenomena and Their Parameters	184
3.1.1	Heartbeat	184
3.1.2	Respiration	194
3.1.3	Blood Circulation	201
3.1.3.1	Blood Pressure	203
	Estimation from Arterial Radius	211
	Estimation from Pulse Running Time	212
3.1.3.2	Blood Flow	215
3.1.3.3	Arterial Radius	218
3.1.4	Blood Oxygenation	221
3.1.5	Body Temperature	225
3.2	Parameter Behavior	230
3.2.1	Cardiorespiratory Interrelations	232
3.2.1.1	Phenomenological Physiology	233
	Normal Respiration	233
	Ceased Respiration	239
3.2.1.2	Biosignals and Parameters	242
	Normal Respiration	242
	Ceased Respiration	251

3.2.2 Cardiovascular Interrelations	253
3.2.2.1 Phenomenological Physiology	254
3.2.2.2 Biosignals and Parameters	258
3.2.3 Biological Rhythms	263
3.2.4 Sleep	270
References	277
Index	283

Biomedical Signals and Sensors I
Linking Physiological Phenomena and Biosignals
Kaniusas, E.
2012, XVIII, 298 p., Hardcover
ISBN: 978-3-642-24842-9
