

# Contents

## Part I Particle Methods in Finance

<b>An Introduction to Particle Methods with Financial Applications</b> .....	3
René Carmona, Pierre Del Moral, Peng Hu, and Nadia Oudjane	
<b>American Option Valuation with Particle Filters</b> .....	51
Bhojnarine R. Rambharat	
<b>Monte Carlo Methods for Adaptive Disorder Problems</b> .....	83
Michael Ludkovski	

## Part II Numerical Methods for Backward Conditional Expectations

<b>Monte Carlo Approximations of American Options that Preserve Monotonicity and Convexity</b> .....	115
Pierre Del Moral, Bruno Rémillard, and Sylvain Rubenthaler	
<b>Optimal Hedging of American Options in Discrete Time</b> .....	145
Bruno Rémillard, Alexandre Hocquard, Hugues Langlois, and Nicolas Papageorgiou	
<b>Optimal Delaunay and Voronoi Quantization Schemes for Pricing American Style Options</b> .....	171
Gilles Pagès and Benedikt Wilbertz	
<b>Monte-Carlo Valuation of American Options: Facts and New Algorithms to Improve Existing Methods</b> .....	215
Bruno Bouchard and Xavier Warin	
<b>Least-Squares Monte Carlo for Backward SDEs</b> .....	257
Christian Bender and Jessica Steiner	

<b>Pricing American Options in an Infinite Activity Lévy Market: Monte Carlo and Deterministic Approaches Using a Diffusion Approximation</b> .....	291
Lisa J. Powers, Johanna Nešlehová, and David A. Stephens	
<b>Fourier Cosine Expansions and Put–Call Relations for Bermudan Options</b> .....	323
Bowen Zhang and Cornelis W. Oosterlee	
<b>Part III Numerical Methods for Energy Derivatives</b>	
<b>A Practical View on Valuation of Multi-Exercise American Style Options in Gas and Electricity Markets</b> .....	353
Klaus Wiebauer	
<b>Swing Options Valuation: A BSDE with Constrained Jumps Approach</b> .....	379
Marie Bernhart, Huyên Pham, Peter Tankov, and Xavier Warin	
<b>Swing Option Pricing by Optimal Exercise Boundary Estimation</b> .....	401
François Turbault and Yassine Youlal	
<b>Gas Storage Hedging</b> .....	421
Xavier Warin	
<b>Sensitivity Analysis of Energy Contracts by Stochastic Programming Techniques</b> .....	447
J. Frédéric Bonnans, Zhihao Cen, and Thibault Christel	

Numerical Methods in Finance

Bordeaux, June 2010

Carmona, R.; Del Moral, P.; Hu, P.; Oudjane, N. (Eds.)

2012, XVIII, 474 p., Hardcover

ISBN: 978-3-642-25745-2
