

Contents

1	Introduction	1
	References	2
2	Lewis or Brønsted Acid-Mediated Transformations of VDCPs. . . .	7
2.1	Mercury Acetate-Mediated Transformations of VDCPs	7
2.2	Lewis or Brønsted Acid-Mediated Intramolecular Rearrangement of VDCPs.	9
2.3	Lewis or Brønsted Acid-Mediated Reactions of VDCPs with Acetals, Aldehydes and Ketones	13
2.4	Lewis or Brønsted Acid-Mediated Reactions of VDCPs with Imines and Their Analogs	19
2.5	Brønsted Acid-Mediated Reactions of VDCPs with Activated Alkenes	22
2.6	Brønsted Acid-Mediated Reactions of VDCPs with Nitriles	25
2.7	Lewis Acid-Mediated Reactions of VDCPs with Acyl Chlorides.	27
2.8	Lewis Acid-Mediated Reactions of VDCPs with Alcohols or Ethers	27
	References	37
3	Transition Metal-Catalyzed Transformations of VDCPs	41
	References	45
4	Reactions of VDCPs with Electrophiles.	47
	References	53

5	Miscellaneous Analogs	55
5.1	Brønsted Base-Mediated Transformations of VDCPs	55
5.2	Radical Reactions of VDCPs	58
5.3	Cycloadditions of VDCPs	59
5.4	Oxidation Reactions of VDCPs	61
	References	65
6	Concluding Remarks and Perspectives of VDCPs	69

Chemical Transformations of Vinylidenecyclopropanes

Shao, L.; Lu, J.; Shi, M.

2012, X, 69 p. 83 illus., 6 illus. in color., Softcover

ISBN: 978-3-642-27572-2
