<b>4</b>	<b>Return to Cambridge: The Citadel of Learning</b>	<b>47</b>
	Theory of Hearing	49
	The Ratio Club	59
	The Eel and the Helix	60
	The Double Boom of Supersonic Aircraft	62
	Cosmological Theory	64
	The Steady State Universe	69
	Debate with the Cambridge Radio Astronomers	75

Electrical Phenomena in the Solar System .....	79
Election of Chancellor of the University of Cambridge .....	81
Election of Chancellor of the University of Cambridge .....	83
Spinning Dust in Space .....	87
<b>5 Appointment at the Royal Greenwich Observatory .....</b>	<b>91</b>
Axis of Rotation of the Earth .....	92
The Surface of the Moon .....	96
Eclipse Expedition .....	99
Appointment of R. R. Woolley as Astronomer Royal .....	100
<b>6 Move to America .....</b>	<b>103</b>
Palomar Observatory and the Crab Nebula .....	103
A Genius with Puzzles .....	109
The Arrow of Time .....	110
The Solvay Conference .....	115
<b>7 Move to Cornell .....</b>	<b>117</b>
Setting Up the Center for Radiophysics and Space Research .....	117
The Great Radio Telescope at Arecibo .....	118
The Rotation of the Planet Mercury: A Cautionary Tale .....	126
<b>8 The Pulsar Era .....</b>	<b>131</b>
<b>9 NASA: The Love–Hate Relationship .....</b>	<b>145</b>
Getting to Know the Moon .....	146
The Van Allen Radiation Belts .....	146
Washington Committee Work .....	149
Apollo .....	151
The Lunar Stereo Camera .....	155
Space Suits .....	159
Measurements of Dust Grains .....	163
The Seismic Observations .....	164
The Scientific Conclusions of the Apollo Flights .....	166
Space Manufacturing .....	167
The Mars Delusion .....	168
NASA Policy in the 1990s .....	169
<b>10 Origin of Petroleum on Earth .....</b>	<b>171</b>
The Debate About the Origin of Petroleum .....	171
Origin of the Carbon on the Earth .....	173
Association of Hydrocarbons with Helium .....	175
Microbial Life .....	176
The Deep, Hot Biosphere .....	178
The Origin of Diamonds .....	180

Horizontal and Vertical Patterns of Hydrocarbon Fields .....	181
How Do Liquids or Gases Make Their Way Up Through the Crust? .....	181
The Search for Hydrocarbons in the Bedrock of Sweden .....	183
The Second Hole .....	191
<b>11 Earthquakes .....</b>	<b>195</b>
The San Francisco Earthquake .....	198
Other Historical Earthquakes .....	199
Tsunamis, Earthquake Spots, and Mud Volcanoes .....	200
Further Evidence for Massive Gas Emissions .....	202
Are Earthquakes Caused by Gas Eruptions? .....	204
Can Earthquakes Be Predicted? .....	205
Do the Large Emissions of a Light and Flammable Gas Pose a Hazard for Aircraft? .....	208
Bibliography .....	213
<b>12 Unfinished Business .....</b>	<b>215</b>
The Strange Case of Io .....	217
Pulsars .....	220
The Swedish Drilling Experiment .....	221
<b>Acknowledgments .....</b>	<b>223</b>
<b>A Personal Postscript .....</b>	<b>225</b>
<b>Index .....</b>	<b>227</b>

Taking the Back off the Watch

A Personal Memoir

Gold, Th. - Mitton, S. (Ed.)

2012, XVIII, 234 p., Hardcover

ISBN: 978-3-642-27587-6
