1 Background and Context of the Chapter . . . . .	151
1.1 The MTAS Hypothesised Model . . . . .	152
2 Selected Research Findings . . . . .	157
2.1 (I) MTAS Studies: Aims, Methods, Samples, Data Analyses and Findings . . . . .	158
2.2 Study 1. The Development of the MTAS Scale . . . . .	158
2.3 Study 2. Investigating the Complex Relationship Between Students' Mathematics Confidence, Confidence with Computers, Attitude to Learning Mathematics with Computers, Affective Engagement, and Behavioural Engagement, Achievement, Gender, and Year Level Using MTAS . . . . .	160
2.4 Study 3. Attitudes to Using CAS Calculators in the Classrooms of Middle and Senior Secondary Mathematics Students . . . . .	164
2.5 (II) Survey of Attitudes Toward Statistics [SATS] Scale Studies: Aims, Methods, Samples, Data Analyses and Findings . . . . .	167
2.6 Study 4. The Construct Validity of the SATS . . . . .	168
2.7 Study 5. Postgraduate Students' Attitudes Toward Statistics . . . . .	170
3 What do the Findings from the Five Studies Tell Us? Conclusions and Implications . . . . .	171
3.1 Secondary Mathematics Students' Attitudes, Engagement and Use of ICT for Learning Mathematics . . . . .	171
3.2 Tertiary Students' Attitudes Toward Statistics . . . . .	173
Appendix 1 Mathematics and Technology Attitudes Scale . . . . .	174
Appendix 2 Factor Structure of the MTAS Scale . . . . .	176

## Part II Equity and Culture

Ferdinand Rivera and Helen Forgasz

### Preface to “Israeli Jewish and Arab Students’ Gendering of Mathematics” . . . . . 199

David Mittelberg and Helen Forgasz

References . . . . . 201

### Israeli Jewish and Arab Students’ Gendering of Mathematics . . . . . 203

*Reprinted from ZDM (2008), 40(4)*

Helen J. Forgasz and David Mittelberg

1 Introduction . . . . . 203

1.1 Contextualising the Study . . . . . 204

1.2 Gendered Beliefs About Mathematics . . . . . 207

2 Aims and Methods . . . . . 209

2.1 Instruments . . . . . 209

2.2 Sample . . . . . 212

2.3 Data Analyses . . . . . 212

3 Results and Discussion . . . . . 212

3.1 Israeli and Australian Grade 9 Students’ Perception of Mathematics Achievement . . . . . 212

3.2 Perceptions of Mathematics Achievement: Ethnic Comparisons . . . . . 213

3.3 Results from the Two Instruments . . . . . 213

3.4 Mathematics as a Gendered Domain: Gender Differences Within Ethnic Groups . . . . . 215

3.5 Gender Differences Among Israeli Jews . . . . . 219

3.6 Gender Differences Among Israeli Arabs . . . . . 220

4 Conclusions and Implications . . . . . 220

Appendix . . . . . 222

References . . . . . 224

### Preface to “Ethnomathematics and Philosophy” . . . . . 227

Bill Barton

References . . . . . 229

### Ethnomathematics and Philosophy . . . . . 231

*Reprinted from ZDM (1999), 31(2)*
