

# Contents

<b>Homocysteine Measurement in Dried Blood Spot for Neonatal Detection of Homocystinurias</b> . . . . .	1
Ahmad N. Alodaib, Kevin Carpenter, Veronica Wiley, Tiffany Wotton, John Christodoulou, and Bridget Wilcken	
<b>Galactokinase Deficiency in a Patient with Congenital Hyperinsulinism</b> . . . . .	7
Mashbat Bayarchimeg, Dunia Ismail, Amanda Lam, Derek Burk, Jeremy Kirk, Wolfgang Hogler, Sarah E Flanagan, Sian Ellard, and Khalid Hussain	
<b>Heart Failure Due to Severe Hypertrophic Cardiomyopathy Reversed by Low Calorie, High Protein Dietary Adjustments in a Glycogen Storage Disease Type IIIa Patient</b> . . . . .	13
Christiaan P. Sentner, Kadir Caliskan, Wim B. Vletter, and G. Peter A. Smit	
<b>Unusual Cardiac “Masses” in a Newborn with Infantile Pompe Disease</b> . . . . .	17
Daniel T. Swarr, Beth Kaufman, Mark A. Fogel, Richard Finkel, and Jaya Ganesh	
<b>The Use of Elevated Doses of Genistein-Rich Soy Extract in the Gene Expression-Targeted Isoflavone Therapy for Sanfilippo Disease Patients</b> . . . . .	21
Věra Malinová, Grzegorz Węgrzyn, and Magdalena Narajczyk	
<b>Pregnancy During Nitisinone Treatment for Tyrosinaemia Type I: First Human Experience</b> . . . . .	27
A. Vanclooster, R. Devlieger, W. Meersseman, A. Spraul, K. Vande Kerckhove, P. Vermeersch, A. Meulemans, K. Allegaert, and D. Cassiman	
<b>Molybdenum Cofactor Deficiency: A New HPLC Method for Fast Quantification of S-Sulfocysteine in Urine and Serum</b> . . . . .	35
Abdel Ali Belaidi, Sita Arjune, Jose Angel Santamaria-Araujo, Jörn Oliver Sass, and Guenter Schwarz	

<b>Adenine Phosphoribosyltransferase Deficiency: An Underdiagnosed Cause of Lithiasis and Renal Failure . . . . .</b>	<b>45</b>
Giuseppina Marra, Paolo Gilles Vercelloni, Alberto Edefonti, Gianantonio Manzoni, Maria Angela Pavesi, Giovanni Battista Fogazzi, Giuseppe Garigali, Lionel Mockel, and Irene Ceballos Picot	
<b>Alkaptonuria: Leading to the Treasure in Exceptions . . . . .</b>	<b>49</b>
Timothy M. Cox	
<b>Chaperone-Like Therapy with Tetrahydrobiopterin in Clinical Trials for Phenylketonuria: Is Genotype a Predictor of Response? . . . . .</b>	<b>59</b>
Christineh N. Sarkissian, Alejandra Gamez, Patrick Scott, Jerome Dauvillier, Alejandro Dorenbaum, Charles R. Scriver, and Raymond C. Stevens	
<b>Riboflavin-Responsive Trimethylaminuria in a Patient with Homocystinuria on Betaine Therapy . . . . .</b>	<b>71</b>
Nigel J. Manning, Elizabeth K. Allen, Richard J. Kirk, Mark J. Sharrard, and Edwin J. Smith	
<b>Successful Noninvasive Ventilation and Enzyme Replacement Therapy in an Adult Patient with Morbus Hunter . . . . .</b>	<b>77</b>
M. Westhoff and P. Litterst	
<b>Hyperargininemia: A Family with a Novel Mutation in an Unexpected Site . . . . .</b>	<b>83</b>
Y. Haimi Cohen, R. Bargal, M. Zeigler, T. Markus-Eidlitz, V. Zuri, and A. Zeharia	
<b>A Rare Galactosemia Complication: Vitreous Hemorrhage . . . . .</b>	<b>89</b>
Sahin Takci, Sibel Kadayifcilar, Turgay Coskun, Sule Yigit, and Burcu Hismi	
<b>Neonatal Cholestasis as Initial Manifestation of Type 2 Gaucher Disease: A Continuum in the Spectrum of Early Onset Gaucher Disease . . . . .</b>	<b>95</b>
Abdallah F. Elias, Maria Ronningen Johnson, John K. Boitnott, and David Valle	
<b>Clinical and Biochemical Profiles of Maple Syrup Urine Disease in Malaysian Children . . . . .</b>	<b>99</b>
Z Md. Yunus, DP Abg Kamaludin, M Mamat, YS Choy, and LH Ngu	
<b>Severe Infusion Reactions to Fabry Enzyme Replacement Therapy: Rechallenge After Tracheostomy . . . . .</b>	<b>109</b>
K. Nicholls, K. Bleasel, and G. Becker	
<b>Infantile Progressive Hepatoencephalomyopathy with Combined OXPHOS Deficiency due to Mutations in the Mitochondrial Translation Elongation Factor Gene <i>GFMT1</i> . . . . .</b>	<b>113</b>
S. Balasubramaniam, Y.S. Choy, A. Talib, M.D. Norsiah, L.P. van den Heuvel, and R.J. Rodenburg	

---

<b>Expanding the Spectrum of PMM2-CDG Phenotype . . . . .</b>	<b>123</b>
Sandrine Vuillaumier-Barrot, Bertrand Isidor, Thierry Dupré, Christiane Le Bizec, Albert David, and Nathalie Seta	
 <b>The Ketogenic Diet Is Well Tolerated and Can Be Effective in Patients with Argininosuccinate Lyase Deficiency and Refractory Epilepsy . . . . .</b>	 <b>127</b>
Rosanne Peuscher, Monique E. Dijsselhof, Nico G. Abeling, Margreet Van Rijn, Francjan J. Van Spronsen, and Annet M. Bosch
