

Contents

- 1 Introduction and Motivation 1**
 - 1.1 Multimodal Systems 2
 - 1.1.1 Structure of Multimodal Systems 3
 - 1.1.2 Research on Multimodal Systems 7
 - 1.2 Research Questions and Structure 8
 - 1.2.1 Quantifying Multimodal Interaction Behaviour 10
 - 1.2.2 Quantifying Output Quality Aspects 10
 - 1.2.3 Quantifying Input Quality Aspects 10
 - 1.2.4 Quantifying Overall Quality of a Multimodal Interactive System 11
 - 1.2.5 Structure 11
- 2 Evaluating Multimodal Systems 13**
 - 2.1 Evaluation Concepts 14
 - 2.2 Evaluation Methods 17
 - 2.2.1 Predictive Evaluation 17
 - 2.2.2 Experimental Evaluation 18
 - 2.2.3 Expert Evaluation 20
 - 2.3 Summary 21
- 3 The Multimodal Interactive System: INSPIRE_Me 23**
 - 3.1 Some Preliminary Considerations 23
 - 3.2 General Remarks on Modalities 25
 - 3.3 Selecting Input Modalities 26
 - 3.3.1 Spoken Input 27
 - 3.3.2 Input Via a Graphical User Interface 28
 - 3.3.3 Gesture-Based Input 29
 - 3.4 Which output to offer 31
 - 3.4.1 Talking Heads and Text-to-Speech 31
 - 3.4.2 Graphical output 32
 - 3.5 INSPIRE_Me 32

4	Quantifying Multimodal Interaction Behaviour	35
4.1	Introduction	35
4.1.1	Research Questions	36
4.1.2	Scope	37
4.1.3	Some General Remarks on Interaction Parameters	37
4.2	Multimodal Interaction Parameters	37
4.2.1	Beforehand: Wordings and Definitions	39
4.2.2	Dialogue- and Communication-Related Parameters	40
4.2.3	Meta-Communication-Related Parameters	42
4.2.4	Cooperativity-Related Parameters	43
4.2.5	Task-Related Parameters	43
4.2.6	Input-Related Parameters	44
4.2.7	Output-Related Parameters	45
4.2.8	Applicability of Multimodal Interaction Parameters	45
4.3	Localization of the Interaction Parameter in the Taxonomy of Quality Aspects	46
4.3.1	Interaction Performance	47
4.3.2	Quality Aspects	48
4.4	Example Applications of Interaction Parameters	49
4.4.1	Modeling User Ratings Based on Interaction Parameters	51
4.4.2	Identifying Problems and Analyzing User Behaviour	58
4.5	Summary	61
5	Quantifying Output Quality Aspects	63
5.1	Introduction	63
5.1.1	Research Questions	64
5.2	Methodology	65
5.3	Contribution of Unimodal System Output Components	66
5.3.1	Results	68
5.3.2	Discussion	69
5.3.3	Conclusion	70
5.4	Influence of the Level of Interactivity	71
5.4.1	Results	71
5.4.2	Discussion	72
5.4.3	Conclusion	73
5.5	The Influence of Additional Media	73
5.5.1	Results	74
5.5.2	Discussion	75
5.5.3	Conclusion	75
5.6	The Relationship of Talking Head Quality, Interaction and System Quality	76
5.7	Intermediate Results	77

5.8	Perceptual Quality Aspects of Talking Heads	78
5.8.1	Results	78
5.8.2	Discussion	81
5.8.3	Conclusion	82
5.9	Relationship with Interaction Parameters.	83
5.9.1	Discussion	84
5.10	ECAS and the Taxonomy of System Quality Aspects.	84
5.11	Summary	85
6	Quantifying Input Quality Aspects	87
6.1	Introduction.	87
6.1.1	Research Question	89
6.2	Preliminary Considerations	89
6.2.1	Gestural Input	90
6.2.2	Touch Input	93
6.2.3	Spoken Input.	93
6.2.4	Conclusion	94
6.3	Methodology	94
6.4	Contribution of Unimodal Input Components	95
6.5	Perceptual Aspects of Input Quality	98
6.6	Influence of Input Component Performance on Perceived Quality	100
6.7	Summary	103
7	Quantifying Quality Aspects of a Multimodal Interactive System	105
7.1	Introduction and Research Question	105
7.2	Methodology	106
7.3	Results	107
7.3.1	Interaction	108
7.3.2	Output Quality	108
7.3.3	Input Quality.	109
7.3.4	The Big Picture.	111
7.4	Discussion.	112
7.5	Summary	113
8	Conclusion.	115
8.1	Summary	115
8.2	Criticism.	117
8.3	Future Work	119

Appendix A: INSPIRE_Me—Graphics 123

Appendix B: Experiments 129

Appendix C: Multimodal Interaction Parameters 145

Appendix D: Cognitive Demand, USE and Quesi 159

Appendix E: Embodied Conversational Agents Scale 163

Glossary 167
