Contents

Part I

1 Daedalus and Icarus 3

2 Artificiality and Naturoids 9

3 Duplicating Reality 13

Part II

4 The First Step: Observation 19

5 Observation and Representations 23

6 The Exemplar and Its Definition 27

7 Essentiality of Things 31

Part III

8 The Mind Reduces Complexity, Reality Does Not Make Discounts 39

9 The Problem of Synthesis 47

10 Transfiguration 53

Part IV

11 Classification of Naturoids 63

12 Automatisms and Naturoids 69

13 Naturoids in Real Contexts: Bionic Man and Robots 75

14 The Challenge of Complexity 83

15 Illusion and Compatibility 87

Part V

16 Naturoids: Interface and Camouflage 95

17 Structure or Process? 99

18 Artificial Limbs: History and Current Trends 109

19 The Artificial Brain 115

20 Prostheses, Replacements and Surrogates 121

21 Artificial Environments and Landscapes 125

22 Virtual Reality 131

23 Conclusions 135

Appendix A: Naturoids and Music 139

Appendix B: Naturoids and Conventional Technology Devices 149
