

Contents

Introduction: Nipah Virus—Discovery and Origin	1
Kaw Bing Chua	
Ecological Aspects of Hendra Virus	11
Hume Field, Gary Crameri, Nina Yu-Hsin Kung and Lin-Fa Wang	
Epidemiology of Henipavirus Disease in Humans	25
Stephen P. Luby and Emily S. Gurley	
Molecular Virology of the Henipaviruses	41
Michael K. Lo and Paul A. Rota	
Henipavirus Receptor Usage and Tropism	59
Olivier Pernet, Yao E Wang and Benhur Lee	
Henipavirus Membrane Fusion and Viral Entry	79
Hector C. Aguilar and Ronald M. Iorio	
Clinical and Pathological Manifestations of Human Henipavirus Infection	95
K. T. Wong and C. T. Tan	
Henipaviruses in Their Natural Animal Hosts	105
D. J. Middleton and H. M. Weingartl	
Nipah and Hendra Virus Interactions with the Innate Immune System.	123
Christopher F. Basler	

Animal Challenge Models of Henipavirus Infection and Pathogenesis.	153
Thomas W. Geisbert, Heinz Feldmann and Christopher C. Broder	
Diagnosis of Henipavirus Infection: Current Capabilities and Future Directions	179
Lin-Fa Wang and Peter Daniels	
Immunization Strategies Against Henipaviruses	197
Christopher C. Broder, Thomas W. Geisbert, Kai Xu, Dimitar B. Nikolov, Lin-Fa Wang, Deborah Middleton, Jackie Pallister and Katharine N. Bossart	
Index	225

Henipavirus

Ecology, Molecular Virology, and Pathogenesis

Lee, B.; Rota, P.A. (Eds.)

2012, XII, 228 p., Hardcover

ISBN: 978-3-642-29818-9
