

Contents

1	Oat Morphology and Taxonomy	1
1.1	Oat Morphology	1
1.2	Oat Taxonomy	6
1.3	The Species Concept in <i>Avena</i>	8
1.3.1	The Morphological Species	9
1.3.2	The Biological Species	10
1.3.3	The Gene Pool System	11
1.4	The Biological Species of <i>Avena</i> and Their Main Sub Species	12
1.4.1	Key to the <i>Avena</i> Species	13
2	My Research Findings in <i>Avena</i>	19
2.1	Morphology and Ecology of Several <i>Avena</i> Species	20
2.1.1	Performing Crosses in <i>Avena</i>	24
2.2	Series Eubarbatae	25
2.2.1	The Diploids	26
2.2.2	The Tetraploids.	28
2.2.3	Production of Triploid Hybrids in Series Eubarbatae, Their Cytology, and Fertility	31
2.2.4	Restoration of Fertility and Stabilization of Chromosome Numbers in F2	32
2.2.5	The Genomes of the Tetraploids in Series Eubarbatae.	33
2.2.6	Genetic Control of Bivalent Pairing in <i>A. babrbata</i>	34
2.2.7	The Possible Origin of the Gene for Bivalent Pairing in <i>A. barbata</i>	34
2.2.8	The Genome Labeling of the Tetraploid <i>A. barabata</i>	37
2.2.9	Recently Described Species in Series Eubarbatae	37

2.3	Section Denticulatae	40
2.3.1	The Designation of the Hexaploid Oats Genomes	41
2.3.2	The Discovery of Additional Species in Section Denticulatae	46
2.4	Back to Sardinia	56
2.5	Cytogenetic Affinities Between <i>A. magna</i> , <i>A. murpyhi</i> , <i>A. insularis</i> and Their Possible Evolution	56
2.6	The Missing Diploid Progenitor of Section Denticulatae	58
2.6.1	The Suspected Geographic Area Where the Missing Diploids May Occur	59
2.7	Oat Domestication	60
2.8	Domestication Via Hybridization, the Case of <i>A. magna</i>	61
2.8.1	<i>Avena magna</i> Domestication as a Model for Other New Crops	64
2.8.2	Production of Synthetic Hexaploid Oat by the Domesticated <i>A. magna</i>	64
3	Collection of <i>Avena</i> Wild Genetic Resources	67
3.1	<i>Avena</i> Working Group	68
3.2	In situ Conservation of Wild Oat Species in Southern Europe	70
3.3	The Methodology of Collecting <i>Avena</i> Wild Genetic Resources	76
3.3.1	The Preparatory Phase	76
3.3.2	Planning Route and Time of the Field Trip	77
3.3.3	The Field Work	77
3.3.4	Handling Wild Genetic Resources in Gene Banks	81
	Glossary	83
	References	85

Studies in Oat Evolution

A Man's Life with Avena

Ladizinsky, G.

2012, X, 87 p. 17 illus., 10 illus. in color., Softcover

ISBN: 978-3-642-30546-7
