
Contents

1	Historical Reflections on the Inflammatory Aspects of Atherosclerosis	1
	F. Javier Nieto	
2	Morphology of Atherosclerotic Lesions	19
	Maya Simionescu and Anca V. Sima	
3	Clinical Manifestations of Atherosclerosis	39
	Roland Klingenberg, Matthias Hasun, Roberto Corti, and Thomas F. Lüscher	
4	Intra-Aortic Hematopoietic Cells	59
	Françoise Dieterlen-Lièvre and Thierry Jaffredo	
5	The Vascular-Associated Lymphoid Tissue (VALT)	77
	Georg Wick, Robert Öllinger, and Giovanni Almanzar	
6	Vascular Endothelial Cells as Immunological Targets in Atherosclerosis	87
	Birgit Fogal and Jordan S. Pober	
7	The Role of Adhesion Molecules and Intimal Dendritic Cells in the Initiation of Atherosclerosis	115
	Jenny Jongstra-Bilen and Myron I. Cybulsky	
8	Animal Models of Atherosclerosis	133
	Cecilia Grundtman	
9	A Darwinian-Evolutionary Concept for Atherogenesis: The Role of Immunity to HSP60	171
	Georg Wick, Nicole Buhr, Gustav Fraedrich, and Cecilia Grundtman	
10	Mediators of Vascular Inflammation	197
	Hafid Ait-Oufella, Ziad Mallat, and Alain Tedgui	

11	Pentraxins and Atherosclerosis	219
	Elisa Barbati, Barbara Bottazzi, Alberico L. Catapano, Cecilia Garlanda, Roberto Latini, Alberto Mantovani, Giuseppe Danilo Norata, and Sonia Valentino	
12	Interleukin-33 and Atherosclerosis	239
	Foo Y. Liew and Ashley M. Miller	
13	Proteomics of Atherosclerosis	249
	Mélanie Abonnenc and Manuel Mayr	
14	Adipokines, Inflammation, and Atherosclerosis	267
	Thomas M. Stulnig and Maximilian Zeyda	
15	Natural Antibodies and Atherosclerosis	289
	Dimitrios Tsiantoulas and Christoph J. Binder	
16	NK/NKT Cells and Atherosclerosis	305
	Marco Cavallari, Thérèse J. Resink, and Gennaro De Libero	
17	Macrophages and Atherosclerosis	331
	Andrew C. Newby	
18	Host Pattern Recognition Receptors (Toll-Like Receptors, RIG-I-Like Receptors, NOD-Like Receptors) and Atherosclerosis	353
	Marc Feldmann and Claudia Monaco	
19	Humoral Antibodies	385
	A. Graham Pockley	
20	Adaptive T Cell Immunity	397
	Charlotte Lahoute, Alain Tedgui, and Ziad Mallat	
21	Immunity to Low-Density Lipoprotein	423
	Göran K. Hansson	
22	Extracellular Matrix and Smooth Muscle Cells	435
	S.J. George and J.L. Johnson	
23	The Role of Infection in Atherosclerosis and in Plaque Stability . .	461
	Stephen E. Epstein, Jianhui Zhu, Amir H. Najafi, and Mary Susan Burnett	
24	Inflammatory Biomarkers	481
	Fabrizio Montecucco, Stephane Noble, and François Mach	
25	Atherosclerosis in Rheumatic Diseases	497
	Marie Holmqvist and Lars Klareskog	
26	Anti-Inflammatory Therapeutic Approaches	513
	Zoltán Szekanecz, György Kerekes, and Yehuda Shoenfeld	

27	Vaccination Against Atherosclerosis	529
	Cecilia Grundtman	
28	Endocrinological Aspects of Atherosclerosis	555
	Till Freudenberger and Jens W. Fischer	
29	Imaging of Atherosclerosis	583
	Marius C. Wick, Iris E. Chemelli-Steingruber, and Christian Kremser	
30	Future Directions of Atherosclerosis Research and Translation into Clinical Application	613
	Qingbo Xu	
31	Controversies and Open Questions	625
	Georg Wick	
	Index	629

Inflammation and Atherosclerosis

Wick, G.; Grundtman, C. (Eds.)

2012, X, 634 p., Hardcover

ISBN: 978-3-7091-0337-1
