# Contents

<b>The Continuing Fascination with Jaks and Stats: An Introduction . . . .</b>	<b>1</b>
Thomas Decker and Mathias Müller	
<b>Regulation of JAKs: Insights Gleaned from the Functional Protein Domains . . . . .</b>	<b>5</b>
Claude Haan, Daniela Ungureanu, Tuija Pekkala, Olli Silvennoinen, and Serge Haan	
<b>Nuclear Functions of the Janus Kinases . . . . .</b>	<b>27</b>
Mark A. Dawson and Andrew J. Bannister	
<b>Self-association of STAT Proteins from Monomers to Paracrystals . . . .</b>	<b>47</b>
Mathias Droscher and Uwe Vinkemeier	
<b>How Stats Interact with the Molecular Machinery of Transcriptional Activation . . . . .</b>	<b>65</b>
Amanda M. Jamieson, Matthias Farlik, and Thomas Decker	
<b>Nongenomic Functions of STAT3 . . . . .</b>	<b>91</b>
Daniel J. Gough, Pravin Sehgal, and David E. Levy	
<b>Evolution of Jak and Stat Proteins . . . . .</b>	<b>99</b>
Claus Vogl, Priyank Shukla, and Ingo Ebersberger	
<b>JAK/STAT and Chromatin Regulation in <i>Drosophila</i> . . . . .</b>	<b>115</b>
Kriti Gaur and Willis X. Li	
<b>JAK/STAT Signaling and Invertebrate Immune Responses . . . . .</b>	<b>133</b>
Feng Zhou and Hervé Agaisse	
<b>Stat5 as a Hematopoietic Master Regulator for Differentiation and Neoplasia Development . . . . .</b>	<b>153</b>
Harini Nivarthi, Katrin Friedbichler, and Richard Moriggl	
<b>Regulation of Dendritic Cell Development by STATs . . . . .</b>	<b>169</b>
Haiyan S. Li and Stephanie S. Watowich	

<b>STAT Transcription Factors: Controlling All Aspects of NK Cell Biology</b> . . . . .	187
Eva Maria Putz, Eva Zebedin, and Veronika Sexl	
<b>Function of JAKs and STATs in Lymphocytes: Bench to Bedside</b> . . . . .	205
Alejandro Villarino, Xiang-Ping Yang, Kiyoshi Hirahara, Yuka Kanno, John J. O'Shea, and Arian Laurence	
<b>The Role of Janus Kinases in Hematopoietic Malignancies</b> . . . . .	239
Damla Olcaydu and Robert Kralovics	
<b>Activation of Janus Kinases During Tumorigenesis</b> . . . . .	259
Jeffrey W. Schmidt and Kay-Uwe Wagner	
<b>STAT1 and STAT3 Transcription Factors in Inflammation-Associated Colon Cancer</b> . . . . .	289
Paulina Rampetsreiter and Robert Eferl	
<b>Universal and Specific Functions of STAT3 in Solid Tumours</b> . . . . .	305
Lidia Avalle, Gabriella Regis, and Valeria Poli	
<b>Impact of STAT5 on Normal Tissue Development and Cancer</b> . . . . .	335
Maria M. Caffarel and Christine J. Watson	
<b>Crosstalk with the Jak-STAT Pathway in Inflammation</b> . . . . .	353
Lionel B. Ivashkiv	
<b>Activation and Inhibition of JAK-STAT Signal Transduction by RNA Viruses</b> . . . . .	371
Curt M. Horvath	
<b>Multifaceted Antiviral Actions of Interferon-Stimulated Gene Products</b> . . . . .	387
Birgit Strobl, Nicole R. Leitner, and Mathias Müller	
<b>Interferon Regulation of the Innate Response to Bacteria</b> . . . . .	425
Ali Abdul-Sater and Christian Schindler	
<b>Index</b> . . . . .	443

Jak-Stat Signaling : From Basics to Disease

Decker, Th.; Müller, M. (Eds.)

2012, XIV, 450 p., Hardcover

ISBN: 978-3-7091-0890-1
