
Contents

Part I	SOCE: Fundamental Mechanistic Concepts	1
1	Introduction	3
	James W. Putney	
2	The STIM-Orai Pathway	15
	Structural Insights into Ca^{2+} Sensing by Stromal Interaction Molecules	
	Peter B. Stathopulos and Mitsuhiko Ikura	
3	The STIM-Orai Pathway	33
	Orai, the Pore-Forming Subunit of the CRAC Channel	
	Patrick G. Hogan	
4	The STIM-Orai Pathway	45
	The Interactions Between STIM1 and Orai	
	Rainer Schindl, Marc Fahrner, Martin Muik, and Christoph Romanin	
5	STIM-TRP Pathways	57
	The STIM1/Orai/TRPC Channels Multiple Ca^{2+} Influx Complexes	
	Jeong Hee Hong, Min Seuk Kim, Kyu Pil Lee, Joseph P. Yuan, and Shmuel Muallem	
6	STIM-TRP Pathways	73
	Function and Regulation of TRPC1: Contribution to Ca^{2+} Entry Activated by Store Depletion	
	Indu S. Ambudkar, Kwong Tai Cheng, Hwei Ling Ong, and Xibao Liu	
7	Microdomain Organization and the Role of Second Messengers	93
	Microdomain Organization of SOCE Signaling	
	Claudia Moreno and Luis Vaca	
8	Microdomain Organization and the Role of Second Messengers	115
	Store-operated Ca^{2+} Entry: Endogenous Messengers and Mediators	
	Victoria M. Bolotina	

Part II SOCE: Crosstalk Between Organelle and Cellular Compartments	131
9 Introduction	133
Ca²⁺ Signaling and Gene Regulation: An Introduction	
Anant B. Parekh	
10 New Aspects of the Contribution of ER to SOCE Regulation	137
The Role of the ER and ER-Plasma Membrane Junctions in the Regulation of SOCE	
Hayley Dingsdale, Lee Haynes, Gyorgy Lur, and Alexei Tepikin	
11 New Aspects of the Contribution of ER to SOCE Regulation	153
The Contribution of SERCA to the Regulation of SOCE	
Javier García-Sancho and María Teresa Alonso	
12 New Aspects of the Contribution of ER to SOCE Regulation	163
TRPC Proteins as a Link between Plasma Membrane Ion Transport and Intracellular Ca²⁺ Stores	
Alexis Bavencoffe and Michael Xi Zhu	
13 The Role of Mitochondria in the Activation/Maintenance of SOCE	177
Store-operated Ca²⁺ Entry and Mitochondria	
András Spät and Gergö Szanda	
14 The Role of Mitochondria in the Activation/Maintenance of SOCE	193
Local Regulation of Plasma Membrane Channels by Mitochondria	
Nicolas Demaurex and Maud Frieden	
15 The Role of Mitochondria in the Activation/Maintenance of SOCE	211
The Contribution of Distinct Mitochondrial Ca²⁺ Uptake Mechanisms, Mitochondrial Motility and Location to Store-operated Ca²⁺ Entry	
Roland Malli and Wolfgang F. Graier	
16 Tissue Specificity	231
The Role of Nanospaces between the Organellar Membranes in Smooth Muscle Ca²⁺ Signaling	
Nicola Fameli, A. Mark Evans, and Cornelis van Breemen	
17 Tissue Specificity	249
SOCE: Implications for Ca²⁺ Handling in Endothelial Cells	
Lothar A. Blatter	

Part III	SOCE: Molecular and Cellular (Patho)Physiology	265
18	Introduction	267
	Juan A. Rosado	
19	Immune System	271
	SOCE Mediated by STIM and ORAI Proteins in Immune Function and Disease	
	Stefan Feske	
20	Cardiovascular System	301
	STIM1/Orai1-Mediated Store-operated Ca^{2+} Entry in Cardiovascular Disease	
	Rajender K. Motiani and Mohamed Trebak	
21	Cardiovascular System	327
	TRPC/Orai-Containing Channels, $\text{Na}^+/\text{Ca}^{2+}$ Exchanger and Ca^{2+} Handling in Hypertension	
	Vera A. Golovina	
22	Cardiovascular System	347
	SOCE and TRPC/STIM/Orai Signaling in Cardiac Myocytes	
	Hiroyuki Watanabe, Takayoshi Ohba, and Hiroshi Ito	
23	Cardiovascular System	363
	SOCE as a Determinant of Cardiac Pacemaker Activity	
	David G. Allen, Yue-Kun Ju, J. Liu, and Mohammad S. Imtiaz	
24	Cardiovascular System	377
	SOCE and Ca^{2+} Handling in Platelet Dysfunction	
	Jose J. Lopez, Gines M. Salido, and Juan A. Rosado	
25	Cardiovascular System	397
	Store-operated Ca^{2+} Entry in Endothelial Pathophysiology	
	Klaus Groschner and Michael Poteser	
26	Nervous System	417
	Pathophysiological Perspective of Neuronal Store-operated Ca^{2+} Signaling	
	Sunitha Bollimuntha, Biswaranjan Pani, and Brij B. Singh	
27	Skeletal Muscle	435
	Store-operated Ca^{2+} Entry and STIM/Orai Signaling in Skeletal Muscle	
	Jonathan A. Stiber and Paul B. Rosenberg	

28	Skeletal Muscle	449
	Store-operated Channels and Ca^{2+} Handling in Muscular Dystrophy	
	Urs T. Ruegg, George Shapovalov, Karin Jacobson, Julie Reutenauer-Patte, Hesham Ismail, Olivier M. Dorchies, and Pavel Avdonin	
29	Reproductive System	461
	Store-operated Ca^{2+} Entry in Germ Cells: Role in Egg Activation	
	Zoltan Machaty, Chunmin Wang, and Kiho Lee	
	Index	475

Store-operated Ca^{2+} entry (SOCE) pathways

Emerging signaling concepts in human

(patho)physiology

Groschner, K.; Graier, W.; Romanin, C. (Eds.)

2012, XXII, 482 p. With online files/update., Hardcover

ISBN: 978-3-7091-0961-8
