Contents

1 Introduction 1
1.1 Introduction to the Field of Research 2
1.2 Research Objectives 3
1.3 Outline 4

2 Transportation Services in the Consumer Goods Industry 7
2.1 Transportation Services 8
2.1.1 Transportation in a Supply Chain Context 8
2.1.2 Categorization of Transportation Services and Transportation Markets 11
2.1.3 Outsourcing of Logistics Services 13
2.1.4 Introduction to Transportation Planning in a Supply Chain Planning Context 17
2.2 Consumer Goods 19
2.2.1 Profile of the Consumer Goods Supply Chain 20
2.2.2 Logistics Responsibilities, Costs and Performance along the Consumer Goods Supply Chain 23
2.2.3 Supply Chain Planning Processes in Consumer Goods Supply Chains 27
2.2.4 Transportation Requirements in Consumer Goods Supply Chains 30
2.2.5 The Consumer Goods Supply Chain's IT-Landscape 33
2.2.6 Responsibilities Along the Consumer Goods Supply Chain ... 36
2.3 Trends and Future Developments along the Consumer Goods Supply Chain 39
2.3.1 Relevant Trends 39
2.3.2 Political Influence and Actors 41
2.3.3 Implications for the Consumer Goods Supply Chain 41
2.3.4 Implications for Transportation Markets 43

3 Assessment of Transportation Cost Saving Opportunities in 3PL Operated Consumer Goods Industry Networks 45
3.1 Freight Rate Analysis 46
3.1.1 Freight Cost Focus in Consumer Goods Industry Networks ... 47
3.1.2 Prime Costs of Transportation Services 47
3.1.3 Transportation Efficiency 49
3.1.4 Costs and Pricing for Outsourced Transportation Services 51
3.1.5 An Introduction to Freight Rate Degression 55
3.2 Introduction to a Consumer Goods Case Study 58
3.2.1 Transportation Activities Covered by the Case Study 59
3.2.2 Case Study Objectives and Restrictions 60
3.2.3 Case Study Dimensions 62

4 Transportation Management in a Consumer Goods Industry Network 63
4.1 Processes 65
4.1.1 Transportation Planning 65
4.1.2 Transportation Control Processes 71
4.1.3 Transportation Execution Processes 72
4.1.4 Summary 72
4.2 IT Systems 73
4.2.1 The Basic TMS Process 75
4.2.2 Key Functions of TMS 76
4.2.3 Extended Functions of TMS 78
4.2.4 Overview on TMS Technology 81
4.2.5 TMS Integration into an IT System Environment 82
4.2.6 Assessment of Existing TMS Suites 85
4.2.7 Expected Future Development of TMS 89
4.3 Organization 90
4.3.1 Transportation Management in the Consumer Goods Supply Chain 91
4.3.2 Modern Transportation Management Organizational Structures 92
4.4 Summary 93

5 Solution Approach 95
5.1 General Solution Approach 96
5.1.1 Introduction to Combination Schemes 98
5.1.2 Application of Combination Schemes 101
5.1.3 Selection of Combinations 102
5.2 Combination of Transportation Orders 103
5.2.1 Simultaneous Combination 103
5.2.2 Sequential Combination 106

5.2.3 Filter Criteria 107
5.2.4 Combination Assessment 110
5.3 Selection of Combinations 111
5.3.1 Formulation of a Binary Optimization Problem 111
5.3.2 Formulation of a Heuristic Approach 112
5.4 Extended Combination Possibilities 113
5.5 Implementation Guidelines 115
5.5.1 Data Requirements 115
5.5.2 Process Integration 116
5.5.3 Systems Integration 121
5.5.4 Organizational Integration 122
5.6 Summary 122

6 Numerical Investigation 125
6.1 Test Case Generation and Setup 126
6.1.1 Description of the Implementation Environment 127
6.1.2 Parameter Choice 127
6.1.3 Sub-Scenario Development 128
6.1.4 Head-Scenario Development 131
6.2 Basic Scenario Evaluation 134
6.2.1 Solution to the Underlying Selection Problem 136
6.2.2 Comparison of Instances Subject to Randomized Order Generation 140
6.2.3 Variation of the Number of Orders 141
6.2.4 Variation of the Number of Locations 141
6.2.5 Variation of Freight Rates 143
6.2.6 Summary 146
6.3 Filter Parameter Variation 147
6.3.1 Filter Parameter Alteration 147
6.3.2 Assessment of Significant Filter Parameters 152
6.3.3 Summary 152
6.4 Head Scenario Evaluation 153
6.4.1 Time Window Variation 154
6.4.2 Load Size Variation 155
6.4.3 Equipment Variation 156
6.4.4 Variation of the Planning Horizon 158
6.4.5 Distance Variation 159
6.5 Summary and Conclusion 161
6.5.1 Summary of Key Findings of the Numerical Investigation 161
6.5.2 Comparison to Real Life Results 163
6.5.3 Conclusion 163

7 Summary and Conclusion 165
7.1 Summary of Key Findings 165
7.2 Fields of Further Research 166
7.3 Conclusion 168
