|---|-----|
| <b>Introduction</b>   | vii |
| <b>1 Globalization: In Search of Definition of a Controversial Concept</b>                  | 1   |
| 1.1 Introduction  | 1   |
| 1.2 Three Criticisms of the Concept of Globalization  | 3   |
| 1.3 Globalization, Internationalization, and Nation-State                                   | 4   |
| 1.4 A Reply to the Criticisms   | 7   |
| 1.5 The Key Features and Components of Globalization  | 9   |
| 1.6 Globalization: A Possible Definition of an Ambivalent Concept                           | 13  |
| References  | 14  |
| <b>2 Measuring Complexity</b>   | 19  |
| 2.1 What Do We Measure? More on the Problem of Definition                                   | 19  |
| 2.2 How Can Complexity be Measured?   | 20  |
| 2.2.1 Indirect Measurement: Indicators and Indices  | 20  |
| 2.2.2 The Construction of an Index and the Problem of Weights                               | 22  |
| 2.2.3 How Many Indicators to Select   | 24  |
| 2.3 Choosing the Unit of Analysis as a Specific Problem in the Measurement of Globalization | 26  |
| 2.4 Globalization Measures as Subjective Constructs   | 28  |
| 2.5 The Characteristics of a Good Globalization Measure                                     | 29  |
| 2.6 Why Measure Globalization? And Why Do So With a Synthetic Measure?                      | 31  |
| References  | 32  |
