

Contents

1 Darwin and Plate Tectonics	1
1.1 Darwin Feels an Earthquake	1
1.2 Earthquake Physics	4
1.3 Plate Tectonics and Failure Modes	5
1.4 How to Measure Earthquakes	6
1.5 Failure Modes	7
1.6 Tsunami Warning Systems	8
1.7 Megaquakes and Transelastic Waves	12
References	13
2 The Great 1960 Chile Megaquake	15
2.1 A Great Earthquake	15
2.2 Earthquakes and Coastal Geomorphology	17
2.3 An Observation of Long-Period Surface Waves on Soft Ground	19
References	20
3 The 1967 Caracas Earthquake	21
3.1 Caracas in 1967.	21
3.2 Accountability and the Law	23
References	24
4 The 1970 Peru Earthquake.	25
4.1 The Santa Valley.	25
4.2 Geology of the Disaster.. . . .	27
4.3 Climate Change and Communicative Action.	28
References	30

5	The 1985 Mexico Earthquake	31
5.1	September 19, 1985, 7:19 a.m.	31
5.2	Lázaro Cárdenas	33
5.3	Mexico City	35
5.4	Social Effects of the Earthquake	36
5.5	The Senate Hearings	37
5.6	Disaster, Denial, and the Law	38
