

Contents

Part I *Bacillus Thuringiensis*: An Environmentally Safety Alternative

1	Discovery and Description of <i>Bacillus thuringiensis</i>	3
	Estibaliz Sansinenea	
2	<i>Bacillus thuringiensis</i> Applications in Agriculture	19
	Zenas George and Neil Crickmore	
3	Risk Assessment of Bt Transgenic Crops	41
	Sarvjeet Kaur	
4	Use and Efficacy of Bt Compared to Less Environmentally Safe Alternatives	87
	Mohd Amir Fursan Abdullah	
5	Protein Engineering of <i>Bacillus thuringiensis</i> δ-Endotoxins	93
	Alvaro M. Florez, Cristina Osorio and Oscar Alzate	

Part II Genetics of *Bacillus Thuringiensis*

6	Evolution of the <i>Bacillus cereus</i> Group	117
	Ole Andreas Økstad and Anne-Brit Kolstø	
7	<i>Bacillus thuringiensis</i> Genetics and Phages—From Transduction and Sequencing to Recombineering	131
	Alexei Sorokin	
8	Conjugation in <i>Bacillus thuringiensis</i>: Insights into the Plasmids Exchange Process	159
	Gislayne T. Vilas-Bôas and Clelton A. Santos	
9	Shuttle Vectors of <i>Bacillus thuringiensis</i>	175
	Alejandra Ochoa-Zarzosa and Joel Edmundo López-Meza	

10 Construction and Application in Plasmid Vectors of <i>Bacillus cereus</i> Group	185
Chengchen Xu, Yan Wang, Chan Yu, Lin Li, Minshun Li, Jin He, Ming Sun and Ziniu Yu	
11 Recombination in <i>Bacillus thuringiensis</i>	201
Lobna Abdelkefi-Mesrati and Slim Tounsi	
12 Genetic Improvement of Bt Strains and Development of Novel Biopesticides	215
Vincent Sanchis	
Part III Bt as Biopesticide: Applications in Biotechnology	
13 Genetically Modified <i>Bacillus thuringiensis</i> Biopesticides	231
Lin Li and Ziniu Yu	
14 <i>Bacillus thuringiensis</i> Recombinant Insecticidal Protein Production	259
H. Ernest Schnepf	
15 Bt Crops: Past and Future	283
Anais S. Castagnola and Juan Luis Jurat-Fuentes	
16 A Review of the Food Safety of Bt Crops	305
Bruce G. Hammond and Michael S. Koch	
Part IV Other <i>Bacillus</i> Species in Biotechnology	
17 The Most Important <i>Bacillus</i> Species in Biotechnology	329
Noura Raddadi, Elena Crotti, Eleonora Rolli, Ramona Marasco, Fabio Fava and Daniele Daffonchio	
18 Secondary Metabolites of <i>Bacillus</i>: Potentials in Biotechnology	347
Ines Chaabouni, Amel Guesmi and Ameer Cherif	
19 Future Challenges and Prospects of <i>Bacillus thuringiensis</i>	367
J. E. Barboza-Corona, N. M. de la Fuente-Salcido and M. F. León-Galván	
Index	385
