1 An Introduction to Adherens Junctions: From Molecular Mechanisms to Tissue Development and Disease	1
Tony J. C. Harris	
Part I How AJs Evolved	
2 Evolution of the Cadherin–Catenin Complex	9
Hiroki Oda	
Part II How Cadherins and Catenins Interact to Assemble AJs	
3 The Three-Dimensional Structure of the Cadherin–Catenin Complex	39
Noboru Ishiyama and Mitsuhiro Ikura	
4 Biophysics of Cadherin Adhesion	63
Deborah Leckband and Sanjeevi Sivasankar	
5 Adherens Junction Assembly	89
Sergey Troyanovsky	
Part III How AJs Interface with Other Cellular Machinery	
6 The Cytoskeleton and Classical Cadherin Adhesions	111
Siew Ping Han and Alpha S. Yap	
7 Immunoglobulin Superfamily Receptors and Adherens Junctions	137
Yohei Shimono, Yoshiyuki Rikitake, Kenji Mandai, Masahiro Mori and Yoshimi Takai	
8 Signaling from the Adherens Junction	171
Abby E. McEwen, David E. Escobar and Cara J. Gottardi	

9	Adherens Junction Turnover: Regulating Adhesion Through Cadherin Endocytosis, Degradation, and Recycling	197
	Andrew P. Kowalczyk and Benjamin A. Nanes	

Part IV How AJs Affect Cell Behaviour and Multicellular Development

10	Adherens Junctions During Cell Migration	225
	Sandrine Etienne-Manneville	
11	Adherens Junctions and Cadherins in <i>Drosophila</i> Development	251
	Annalisa Letizia and Marta Llimargas	
12	Adherens Junctions in <i>C. elegans</i> Embryonic Morphogenesis	279
	Stephen T. Armenti and Jeremy Nance	
13	Cadherin Function During <i>Xenopus</i> Gastrulation	301
	Rudolf Winklbauer	
14	Adherens Junctions in Mammalian Development, Homeostasis and Disease: Lessons from Mice	321
	Barbara Boggetti and Carien M. Niessen	

Part V How AJs Affect Tissue Homeostasis and Disease

15	Adherens Junctions and Stem Cells	359
	Terry Lechler	
16	Adherens Junctions and Cancer	379
	Valeri Vasioukhin	
17	Adherens Junctions and Pathogen Entry	415
	Georgios Nikitas and Pascale Cossart
