

Contents

1	Introduction	1
2	Basic Logarithm for a Better Understanding of Statistical Methods	3
	Theory and Basic Steps	3
	Example, Markov Model	4
	Example, Odds Ratios	4
	Conclusion	5
3	Missing Data Imputation	7
	Conclusion	10
4	Assessing Manipulated Data	11
	Chi-Square Table (X^2 - Table).	12
	Conclusion	13
5	Propensity Scores and Propensity Score Matching for Assessing Multiple Confounders	15
	Propensity Scores.	15
	Propensity Score Matching	17
	Conclusion	17
6	Markov Modeling for Predicting Outside the Range of Observations	21
	Example	21
	Note	22
	Conclusion	22

7	Uncertainty in the Evaluation of Diagnostic Tests	23
	Estimating Uncertainty of Sensitivity and Specificity	23
	Conclusion	25
8	Robust Tests for Imperfect Data	27
	T-test for Medians and Median Absolute Deviations (MADs)	28
	T-test for Winsorized Variances.	29
	Mood's Test (One Sample Wilcoxon's Test)	29
	Conclusion	30
9	Non-Linear Modeling on a Pocket Calculator	31
	Example	31
	Appendix	31
	Linear Regression ($y = a + bx$, r = correlation coefficient)	31
	Conclusion	33
10	Fuzzy Modeling for Imprecise and Incomplete Data	35
	Fuzzy Terms	35
	Example	36
	Example for Exercise	40
	Conclusion	40
11	Goodness of Fit Tests for Normal and Cumulatively	
	Normal Data	41
	Chi-Square Goodness of Fit Test	41
	Kolmogorov–Smirnov Goodness of Fit Test	42
	Conclusion	44
12	Bhattacharya Modeling for Unmasking Hidden	
	Gaussian Curves.	45
	Example	45
	Conclusion	47
13	Item Response Modeling Instead of Classical Linear	
	Analysis of Questionnaires	49
	Example	49
	Conclusion	52
14	Superiority Testing Instead of Null Hypothesis Testing	53
	Example	53
	Note	54
	Conclusion	54

15	Variability Analysis With the Bartlett's Test	55
	Example (Bartlett's test)	55
	Notes	56
	Conclusion	56
16	Binary Partitioning for CART (Classification and Regression Tree) Methods	57
	Conclusion	59
17	Meta-Analysis of Continuous Data	61
	Example	61
	Conclusion	62
18	Meta-Analysis of Binary Data	63
	Example	63
	Conclusion	64
19	Physicians' Daily Life and the Scientific Method	65
	Falling Out of Bed	66
	Evaluation of Fundic Gland Polyps	66
	Physicians with a Burn-Out	67
	Patients' Letters of Complaints	67
	Conclusion	68
20	Incident Analysis and the Scientific Method	69
	Example	69
	Conclusion	71
	Final Remarks	73
	Index	75
