

Contents

1	An Introduction to Phosphoinositides	1
	Tania Maffucci	
2	Phosphoinositides and Cardiovascular Diseases	43
	Alessandra Ghigo, Alessia Perino and Emilio Hirsch	
3	Phosphoinositides in Insulin Action and Diabetes.	61
	Dave Bridges and Alan R. Saltiel	
4	Phosphoinositides in Neuroexocytosis and Neuronal Diseases	87
	Peter J. Wen, Shona L. Osborne and Frederic A. Meunier	
5	Effects of Phosphoinositides and Their Derivatives on Membrane Morphology and Function	99
	Banafshé Larijani and Dominic L. Poccia	
6	Molecular Analysis of Protein–Phosphoinositide Interactions	111
	Tatiana G. Kutateladze	
7	PIKfyve and its Lipid Products in Health and in Sickness	127
	Assia Shisheva	
8	Class I Phosphoinositide 3-Kinases in Normal and Pathologic Hematopoietic Cells.	163
	François Vergez, Christian Recher and Bernard Payrastre	
9	The Diverse Functions of Phosphatidylinositol Transfer Proteins	185
	Shamshad Cockcroft	

10	Myotubularin Phosphoinositide Phosphatases in Human Diseases	209
	Leonela Amoasii, Karim Hnia and Jocelyn Laporte	
11	Nuclear PI-PLC β1 and Myelodysplastic Syndromes: From Bench to Clinics	235
	Sara Mongiorgi, Matilde Y. Follo, Cristina Clissa, Roberto Giardino, Milena Fini, Lucia Manzoli, Giulia Ramazzotti, Roberta Fiume, Carlo Finelli and Lucio Cocco	
12	Inositol Polyphosphate Phosphatases in Human Disease	247
	Sandra Hakim, Micka C. Bertucci, Sarah E. Conduit, David L. Vuong and Christina A. Mitchell	
	Index	315

Phosphoinositides and Disease

Falasca, M. (Ed.)

2012, VI, 318 p., Hardcover

ISBN: 978-94-007-5024-1
