Preface	vii
1. Introduction, Survey and Background Material	1
1.1 Introduction	1
1.2 Deterministic Differential Games: A Brief Survey	5
1.3 Stochastic Differential Games: Definition and Brief Discussion	14
1.4 Formulation of the Problem	20
1.5 Basic Definitions	22
2. Stochastic Linear Pursuit-Evasion Game	25
2.1 Introduction	25
2.2 Preliminaries and an Existence Theorem	26
2.3 Existence of a Solution for a Stochastic Linear Pursuit-Evasion Game . . .	30
2.4 The Solution of a Stochastic Linear Pursuit-Evasion Game With Nonrandom Controls	33
3. Two Person Zero-Sum Differential Games-General Case	47
3.1 Introduction	47
3.2 Two Person Zero-sum Games: Martingale methods	47
3.3 Two Person Zero-sum Games and Viscosity Solutions	58
3.4 Stochastic differential games with multiple modes	61
4. Formal Solutions for Some Classes of Stochastic Linear Pursuit- Evasion Games	65
4.1 Introduction	65
4.2 Preliminaries	66
4.3 Formal solution for a Stochastic Linear Pursuit-Evasion game with perfect information	67

4.4	On Stochastic Pursuit-Evasion games with imperfect information	69
4.5	Summary	70
5.	N-Person Noncooperative Differential Games	73
5.1	Introduction	73
5.2	A stochastic Pursuit-Evasion Game	73
5.3	General solution	84
6.	Weak Convergence in Two Player Stochastic Differential Games	95
6.1	Introduction	95
6.2	Weak Convergence Preliminaries	96
6.3	Some Popular Payoff Structures	98
6.4	Two Person Zero-sum Stochastic Differential Game with Multiple Modes, Weak Convergence	114
6.5	Partially Observed Stochastic Differential Games	125
6.6	Deterministic Approximations in Two-Person Differential Games	135
7.	Weak Convergence in Many Player Games	147
7.1	Introduction	147
7.2	Some Popular Payoffs	147
7.3	Deterministic Approximations in N -Person Differential Games	157
8.	Some Numerical Methods	165
8.1	Introduction	165
8.2	Discounted Payoff Case	166
8.3	Ergodic Payoff case	187
8.4	Non-zero Sum Case	196
9.	Applications to Finance	215
9.1	Introduction	215
9.2	Stochastic Equity Investment Model with Institutional Investor Speculation	216
9.3	Competitive Advertising under Uncertainty	221
