Preface	v
List of Figures	xv
1 Preliminaries	1
1.1 Magic	1
1.1.1 Magic Squares	1
1.1.2 Latin Squares	2
1.1.3 Magic Rectangles	4
1.2 Graphs	6
1.3 Digraphs	10
1.4 Labelings	10
1.5 Magic Labeling	11
1.6 Some Applications of Magic Labelings	13
1.6.1 Efficient Addressing Systems	13
1.6.2 Ruler Models	13

2	Edge-Magic Total Labelings	15
2.1	Basic Ideas	15
2.1.1	Definitions	15
2.1.2	Some Elementary Counting	16
2.1.3	Duality	18
2.2	Graphs with no Edge-Magic Total Labeling	19
2.2.1	Main Theorem	19
2.2.2	Forests	20
2.2.3	Regular Graphs	21
2.3	Cliques and Complete Graphs	23
2.3.1	Sidon Sequences and Labelings	23
2.3.2	Complete Graphs	24
2.3.3	All Edge-Magic Total Labelings of Complete Graphs	27
2.3.4	Complete Subgraphs	28
2.3.5	Split Graphs	33
2.4	Cycles	33
2.4.1	Small Cycles	36
2.4.2	Generalizations of Cycles	37
2.5	Complete Bipartite Graphs	40
2.5.1	Small Cases	40
2.5.2	Stars	41
2.6	Wheels	42
2.6.1	The Constructions for $n \not\equiv 2 \pmod{4}$	43
2.6.2	The Constructions for $n \equiv 2 \pmod{4}$	49
2.7	Trees	52
2.8	Disconnected Graphs	54
2.8.1	Some Easy Cases	54
2.8.2	Unions of Complete Graphs	54

2.8.3	Unions of Stars	56
2.8.4	Trichromatic Graphs	57
2.9	Super Edge-Magic Total Labelings	59
2.10	A Cycle with a Chord	62
2.10.1	Odd Cycles	63
2.10.2	Even Cycles	65
2.10.3	Some General Constructions	66
2.11	Edge-Magic Injections	67
3	Vertex-Magic Total Labelings	71
3.1	Basic Ideas	71
3.1.1	Definitions	71
3.1.2	Basic Counting	72
3.2	Regular Graphs	73
3.3	Cycles and Paths	75
3.4	Vertex-Magic Total Labelings of Wheels	78
3.4.1	Large Wheels Cannot be Labeled	78
3.4.2	Small Wheels can have many Labelings	79
3.4.3	Generalizations of Wheels	79
3.5	VMTLs of Complete Bipartite Graphs	80
3.5.1	Construction of Vertex-Magic Total Labelings of $K_{m,n}$..	82
3.5.2	The Spectrum	88
3.5.3	Joins	90
3.5.4	Unions of Stars	90
3.6	VMTLs of Complete Tripartite Graphs	93
3.7	Graphs with Vertices of Degree One	95
3.8	The Complete Graphs	98

3.9	Disconnected Graphs	100
3.9.1	Multiples of Regular Graphs	101
3.10	Super Vertex-Magic Total Labelings	102
3.10.1	E -super Vertex-Magic Total Labelings	102
3.10.2	V -super Vertex-Magic Labelings	105
3.11	Vertex-Magic Injections	107
4	Totally Magic Labelings	111
4.1	Basic Ideas	111
4.1.1	Definitions	111
4.1.2	Examples	111
4.2	Isolates and Stars	112
4.3	Forbidden Configurations	114
4.4	Unions of Triangles	119
4.5	Small Graphs	125
4.6	Totally Magic Injections	126
4.7	The Totally Magic Equation Matrix	130
4.8	Survivors on Seven Vertices	131
5	Magic Type Labelings of Digraphs	135
5.1	Magic Labelings	135
5.1.1	Definitions	135
5.1.2	Basic Counting	136
5.1.3	Small Examples	136
5.1.4	Complete Digraphs	138
5.1.5	Double Cycles	139
5.1.6	Magic Digraphs with Two Magic Constants	141
5.2	Locally Magic Labelings	141
5.2.1	Definitions	141

5.2.2	Digraphs with no Locally Magic Labeling	143
5.2.3	Cycles	144
5.2.4	Wheels	144
5.2.5	Complete Graphs	144
5.2.6	Complete Bipartite Digraphs	145
5.3	Vertex-Magic Edge Labelings	147
5.4	Arc-Magic Labelings	149
5.4.1	Definitions	149
5.4.2	Paths and Cycles	150
5.4.3	Labelings for Arc-Magic Digraphs	151
5.5	In/Out Magic Total Labelings	153
5.5.1	Basic Ideas	153
5.5.2	Small Digraphs	155
5.5.3	Forbidden Configurations	156
5.5.4	Regular Graphs	156
Notes on the Research Problems		159
References		163
Answers to Selected Exercises		171
Index		183

Magic Graphs

Marr, A.M.; Wallis, W.D.

2013, XVI, 188 p., Hardcover

ISBN: 978-0-8176-8390-0

A product of Birkhäuser Basel
