# Contents

<b>1 Nutrition, Aging, and Chronic Low-Grade Systemic Inflammation in Relation to Osteoporosis and Sarcopenia . . . . .</b>	<b>1</b>
Robin M. Daly	
<b>2 Interactions of Dietary Patterns, Systemic Inflammation, and Bone Health . . . . .</b>	<b>19</b>
Adrian D. Wood and Helen M. Macdonald	
<b>3 Weight Loss and Physical Activity in Obese Older Adults: Impact on Skeletal Muscle and Bone . . . . .</b>	<b>31</b>
Dylan R. Kirn and Roger A. Fielding	
<b>4 The Hormonal Milieu in Obesity and Influences on the Trabecular, Cortical, and Geometric Properties of Bone . . . . .</b>	<b>43</b>
Sue A. Shapses and Deeptha Sukumar	
<b>5 Emerging Nutritional and Lifestyle Risk Factors for Bone Health in Young Women: A Mixed Longitudinal Twin Study . . . . .</b>	<b>61</b>
Jemma J. Christie, Caryl A. Nowson, Suzanne M. Garland, and John D. Wark	
<b>6 Dietary Fat Composition and Age-Related Muscle Loss . . . . .</b>	<b>71</b>
Ailsa A. Welch	
<b>7 Relationships Between Body Fat and Bone Mass . . . . .</b>	<b>83</b>
Ian R. Reid	
<b>8 Acid–Base Homeostasis and Skeletal Health: Current Thinking and Future Perspectives . . . . .</b>	<b>93</b>
Helen Lambert, Claire Huggett, Richard Gannon, and Susan A. Lanham-New	
<b>9 When Is Low Potential Renal Acid Load (PRAL) Beneficial for Bone? . . . . .</b>	<b>99</b>
Thomas Remer, Danika Krupp, and Lijie Shi	
<b>10 The Effect of Alkaline Potassium Salts on Calcium and Bone Metabolism . . . . .</b>	<b>109</b>
Deborah E. Sellmeyer	

<b>11</b>	<b>The Effects of Protein Supplementation on Bone Mass in Chinese Postmenopausal Women. . . . .</b>	<b>119</b>
	Qian Zhang, Feitong Wu, Xiaoqi Hu, Ying Liu, Cuixia Wang, Richard Prince, and Kun Zhu	
<b>12</b>	<b>The Negative Effect of a High-Protein–Low-Calcium Diet . . .</b>	<b>125</b>
	Peter Burckhardt	
<b>13</b>	<b>Prebiotics, Probiotics, Polyunsaturated Fatty Acids, and Bone Health. . . . .</b>	<b>133</b>
	Marlena C. Kruger and Magdalena Coetzee	
<b>14</b>	<b>Comparison of Natural Products for Effects on Bone Balance. . . . .</b>	<b>147</b>
	Connie M. Weaver and Emily E. Hohman	
<b>15</b>	<b>Citrus Flavanones and Bone Health. . . . .</b>	<b>157</b>
	Marie-Noëlle Horcajada and Elizabeth Offord	
<b>16</b>	<b>Intake of B Vitamins and Carotenoids in Relation to Risk of Hip Fracture in Elderly Chinese. . . . .</b>	<b>171</b>
	Zhaoli Dai, Renwei Wang, Li-Wei Ang, Jian-Min Yuan, and Woon-Puay Koh	
<b>17</b>	<b>Dietary Anthocyanidins and Bone Health. . . . .</b>	<b>177</b>
	Claire J. Macdonald-Clarke and Helen M. Macdonald	
<b>18</b>	<b>Chapter Relative Effects of Vitamin D<sub>3</sub> and Calcifediol. . . . .</b>	<b>189</b>
	Heike A. Bischoff-Ferrari	
<b>19</b>	<b>Physical Performance, Muscle Strength, Falls, and Vitamin D . . . . .</b>	<b>197</b>
	Paul Lips and Natasja M. van Schoor	
<b>20</b>	<b>Vitamin D Status in Relation to Veiling, Obesity, and Milk Intake in Saudi Women. . . . .</b>	<b>203</b>
	Khulood Sami Hussein, Hanan Ahmad Alkadi, Susan A. Lanham-New, and Mohamed Saleh Ardawi	
<b>21</b>	<b>Serum 25(OH)D and Calcium Intake Predict Changes in Hip BMD and Structure in Young Active Men. . . . .</b>	<b>213</b>
	Jeri W. Nieves, Marsha Zion, Jamie Ruffing, Susan Tendy, Patricia Garrett, Robert Lindsay, and Felicia Cosman	
<b>22</b>	<b>The Comparative Effects of Vitamin D<sub>2</sub> Versus Vitamin D<sub>3</sub> Supplementation in Improving Serum 25(OH)D Status: A Review of the Evidence . . . . .</b>	<b>219</b>
	Laura Tripkovic and Susan A. Lanham-New	
<b>23</b>	<b>Vitamin D Supplementation and Changes in Vitamin D and Bone Metabolites in Children. . . . .</b>	<b>227</b>
	Richard D. Lewis and Emma M. Laing	

<b>24</b>	<b>Determinants of the 25-Hydroxyvitamin D Response to Vitamin D Supplements</b> . . . . .	<b>237</b>
	Bess Dawson-Hughes	
<b>25</b>	<b>Strategies for Improving Vitamin D Status: Focus on Fortification</b> . . . . .	<b>247</b>
	Timothy J. Green, Wangyang Li, and Susan J. Whiting	
<b>26</b>	<b>Vitamin D and Calcium Absorption: Toward a New Model</b> . . . . .	<b>261</b>
	Robert P. Heaney	
<b>27</b>	<b>Do Desirable Vitamin D Levels Vary Globally?</b> . . . . .	<b>273</b>
	Ghada El-Hajj Fuleihan, Maya Rahme, and Darina Bassil	
<b>28</b>	<b>Sexual Dimorphism in Bone and Body Composition in Rural Gambian Prepubertal Children Habituated to a Low Calcium Intake</b> . . . . .	<b>301</b>
	Landing M.A. Jarjou, Kate A. Ward, Gail R. Goldberg, Yankuba Sawo, and Ann Prentice	
<b>29</b>	<b>The Likely Importance of Specific Dairy Foods in Relation to Bone Health: Current Knowledge and Future Challenges</b> . . . . .	<b>307</b>
	Shivani Sahni, Douglas P. Kiel, and Marian T. Hannan	
<b>30</b>	<b>Galacto-oligosaccharides: Prebiotic Effects on Calcium Absorption and Bone Health</b> . . . . .	<b>315</b>
	Corrie M. Whisner and Connie M. Weaver	
<b>31</b>	<b>The Relationship of Weight-Bearing Physical Activity and Dietary Calcium Intake with Bone Mass Accrual in the Bone Mineral Density in Childhood Study Cohort</b> . . . .	<b>325</b>
	Joan Lappe, Patrice Watson, Vicente Gilsanz, Heidi J. Kalkwarf, Thomas N. Hangartner, Sharon E. Oberfield, John Shepherd, Babette S. Zemel, and Karen K. Winer	
<b>32</b>	<b>Preventing Malnutrition to Reduce Fracture Risk in Aged Care Residents. A Dairy-Based Protein, Calcium, and Vitamin D Supplement Reduce Falls and Femoral Neck Bone Loss in Aged Care Residents: A Cluster Randomized Trial</b> . . . . .	<b>335</b>
	Sandra Iuliano	
<b>33</b>	<b>Effects of Vitamin D and Calcium Supplementation on Heart Rate and Blood Pressure in Community-Dwelling Older Individuals</b> . . . . .	<b>343</b>
	Michael Pfeifer	
<b>34</b>	<b>Calcium Metabolism in Mexican American Adolescents</b> . . . .	<b>351</b>
	Cristina Palacios and Connie M. Weaver
