
Contents

Part I Genodermatoses

1	Hyperkeratotic Palms and Soles with Periorificial Keratosis	3
2	Indurated, Dark, Hairy Plaques, with Arthritis and Deafness	9
3	Cleft Palate, with a Peculiar Limb Deformity	25
4	Blisters, Hypodontia, Deafness and Alopecia	31
5	Mucocutaneous Pigmentation, Alopecia and Candidiasis	39
6	Congenital Alopecia Associated with Papular Eruption and Abnormal Lesions	43
7	Photosensitivity, Lipodystrophy, Mental Retardation and Joint Contractures	49
8	Dark, Thick Nipples and Areolas	55
9	Thick Nails, Palms and Soles	59
10	Eczema, Recurrent Abscesses and Recurrent Respiratory Tract Infections	67
11	Senile at the Age of 20	73
12	Infantile Alopecia, Characteristic Facies and Sclerosed Atrophic Limbs	79
13	A Child with Sagging Cheeks	89
14	Acrodermatitis Enteropathica Like Eruption	95
15	Acrodermatitis Enteropathica-Like Eruption, Another Unusual Cause	101
16	A Child with Hoarse Cry, Subcutaneous Nodules and Joint Contracture	107
17	Stubborn Leg Ulcers, Stiff Joints, Acral Sclerodermoid Changes and Fragile Skin	113

Part II Neutrophilic Dermatoses and Related Disorders

18	Unusual Presentations of an Uncommon Ulcerative Disorder	121
----	--	-----

Part III Vascular Disorders and Vasculitis

19	An Unexpected Cause of Leg Ulceration	137
20	Limb Ulcer and Paresis; Acquired and Congenital	143

21 Recurrent Abortions and Atrophic Telangiectatic Leg Lesions with Ulcerations	149
22 Acral Necrosis in a Heavy Smoker	157
Part IV Vascular Malformations and Tumors	
23 A Persistent Hemorrhagic Swelling	167
24 Peripheral Gangrene Affecting a Family	173
25 Vascular Eruption in a Long-Standing Systemic Sclerosis	181
26 Pendulous Breasts with Reticulate, Vascular and Necrotic Plaques	187
27 Disseminated Ulcerative Vascular Plaques in a Child	193
28 Diffuse Congenital Vascular Lesions Affecting One Limb with Reduced Limb Size	201
29 Multiple Painless Bluish Nodules	207
30 A Painful Bluish Nodule	213
31 An Aggressive Lesion Involving the Scalp of an Elder	219
Part V Cutaneous Lymphomas and Lymphocytic Infiltrate	
32 An Unusual Differential Diagnosis of Leg Ulcer	231
33 A Disease Hiding in a Granuloma	237
34 Aggressive Follicular Lesions Involving Head and Neck	243
35 Non-resolving Chronic Eyelid Swelling	255
36 Rapidly Growing Ulcers on the Face	261
37 Persistent Papules and Nodules on the Side of the Tongue	267
38 Ulceration in the Flank of a Middle-Aged Man	273
39 Pyoderma Gangrenosum-Like Lesions	281
40 Unexplained Anemia with Pyoderma Gangrenosum-Like Ulcer	287
41 A Long History of Panniculitis	293
42 Ulcerated Nodules in a Healthy Woman	301
43 EBV-Associated Granulomatous Lesions	309
Part VI Metabolic and Nutritional Disorders	
44 Facial and Flexural Deposits Associated with Scalp Swelling	319
45 Generalized Mottled Hyper and Hypopigmentation, Without Systemic Abnormalities	327
Part VII Infections of the Skin	
46 Two Infections Coexisting in One Patient	335
47 An Atypical Presentation of a Cutaneous Infection	343

48 An Infection Presenting as a Connective Tissue Disease	349
49 Asymptomatic Acral Exanthem	355
50 Draining Ulcers in a Healthy Boy.	359
51 A Child with Fever, Lymphadenitis and Rash	365
52 An Extremely Rare Cause of Erythroderma.	371
53 Painless Disfiguring Tumors with Draining Sinuses.	379
54 Exquisitely Painful, Rapidly Progressing Lesions	387
55 A Rare Cause of Mucocutaneous Ulceration	393
56 A Rare and Severe Variant of a Common Disease	401
57 Pyogenic Granuloma-Like Nodules in AIDS Patient	409
58 A Scalp Abscess Without an Overlying Wound	415
59 An Unusual Kerion-Like Scalp Tumor	421
 Part VIII Disorders of Connective Tissue	
60 Tiny Linear Yellowish Papules on the Neck	429
61 Widespread Hardening of the Skin with Nodular Thickening and Leg Ulcers.	433
62 Dysmorphic Facies, Tight Skin and Early Death	441
63 Atrophic Blaschkoid Lines Associated with Syndactyly	447
 Part IX Tumors of Skin Surface and Skin Appendages	
64 A Painful and Wet Purple Plaque	455
65 A Rare Epidermal Tumor Mimicking Seborrheic Keratosis.	461
66 Enumerable Tiny Follicular Papules	465
67 Bluish Discrete Follicular Papules of Gradual Onset.	475
68 Clinically Non-specific, Histologically Very Specific Tumor	481
69 A Slowly Growing Tumor in Elderly Females.	485
70 A Long Standing Ulcerative Large Tumor on the Scalp	493
71 An Eye Lid Tumour That Destroyed the Eye and Extended to the Scalp and Face.	499
72 A Keratotic Penile Lesion	505
 Part X Lichenoid Disorders	
73 A Rare Violaceous and Reticulate Lichenoid Eruption with Greasy Scales on the Face	515
 Part XI Pigmentary Disorders	
74 Diffuse Pigmentation with Guttate Hypomelanosis in an Anemic Patient.	523

75 Diffuse Hyperpigmentation with Guttate Hypomelanosis and Light Hair	529
76 Recurrent Pruritic Eruption Resolving with Reticulate Pigmentation	539
77 A Child with Hypopigmented Skin, Grey Hair, Neurological and Immunological Defects	545
78 Guttate Hypopigmentation and Punctate Palmoplantar Keratoderma	551
Part XII Blistering Disorders	
79 An Adult with Blisters and Milia on Trauma-Prone Sites	559
80 Traumatic Blisters on the Extremities and White Papules on the Lumbosacral Area of Early Onset	567
81 Acral Blisters with Decreased Sensation and Muscle Wasting	579
82 Extensive and Persistent Erosions Involving the Eyes, Oral Mucosa, Vulva and Skin	587
83 Painful Blisters and Erosions on the Scalp	597
84 Extremely Pruritic Polymorphous Eruption in an Elderly Male	603
Part XIII Systemic Diseases and the Skin	
85 Pruritus Without a Skin Lesion	613
86 Early-Onset Jaundice with Severe Pruritus	619
87 Porcelain-Like Scars in a Sick Child	625
88 Different Granulomatous and Pustular Skin Lesions Caused by One Underlying Disorder	631
89 A Healthy Female with Migratory Pruritic Figurate Erythema	645
Part XIV Neurogenic Disorders and Tumors	
90 Post-traumatic Burning Pain, Swelling, and Vasomotor Dysfunction	655
91 Middle-Aged Female with Asymptomatic Rapidly Growing Nodule	663
92 Blueberry-Muffin Lesions in a Baby	671
Part XV Fibrohistiocytic Tumors	
93 A Young Woman with Red-White Plaques	679
94 A Rare Benign Bump on a Child's Digit	685
95 A Recurrent Tender Nodule on the Tip of the Middle Finger	691
Part XVI Eosinophilic Disorders	
96 Post-traumatic, Rapidly Expanding Tongue Lesion	699

97 Recurrent Urticaria and Angioedema Associated with Persistent Eosinophilia	703
Part XVII Histiocytoses	
98 Self-Limited Ulcerative Lesions in an Infant	717
99 Mucocutaneous Yellowish Papules and Polyuria	723
Part XVIII Metastatic Tumors of the Skin	
100 Hemorrhagic Papules and Nodules on a Male Breast	733
101 A Hemorrhagic Nodule on the Scalp of an Elderly Woman	739
Index	743
