

Contents

Part I Business Intelligence and Applications

1	Breeding Base System Based on GIS	3
	Xiaoguang Li, Fenghua Wu, Jian Wang and Guie Tian	
2	Research on Social and Environmental Factors Impact on College Students' Interview Impression Management Behavior	11
	Cheng-hu Zhang, Ying Yue and Dong-mei Li	
3	Analysis of Arrears Problem for Independent College Students	19
	Guangbiao Sun, Jun Zheng, Luyang Gao and Hui Wang	
4	Real Estate Industry Situation Analysis Model.	29
	Tianjiu Leng, Dongdo Hu, Peng Hu, Wenxian Lin and Tao Liu	
5	Study on Consumer Satisfaction in Agricultural Products Supermarkets and Fairs	41
	Lifang Zhang and Zhichao Liu	
6	Study on Corporate Governance Based on Acquirer's Long-Term Performance Analysis	49
	Zhang Jia and Han Liyan	
7	Research on Chinese Marxism Social Development Theory Based on Analytic Hierarchy Process	57
	Qiulan Chen	

8	SWOT Analysis of the Innovative Strategies of Independent Colleges' Development Norms—Taking Zhejiang University of Finance and Economics Dongfang College for Example	65
	Ge Mao and Dongliang Huang	
9	Comparative Analysis on Financial Governance of Listed Companies Between China and European Countries	73
	Gang Xu	
10	Separation of Bromine by Liquid Surfactant Membranes.	81
	H. Wang, Cang Yan Xiao and Bin Zhao	
11	Research on Location and Time of Serial Criminals	89
	Yun Hua Qu and Guan Chen Zhou	

Part II Control Engineering and Applications

12	EGR Control System Based on ANN	99
	Guan Qiang Ruan, Zheng Dong Zhang and Qiang Wang	
13	Control System of GSM Communication Network Based on Remote Household Appliances	105
	Jing Li	
14	A Novel MPPT Control Scheme in PV System Based on Super Capacitor Energy Storage	113
	Hang Zhang and Nan Li	
15	Measurement and Control System of Steel Furnace Based on OPC Technology	121
	Liping Liu, Yongli An and Jingtao Yin	
16	Concurrency Control of Real-Time Distributed Web Applications Based on J2EE Multi-Tier Architecture.	127
	Chang-e Dong	
17	Electric Power Automation Control System Based on SCADA Protocols	137
	Shihai Tan	
18	Predictive Functional Control for Tension of Cold Continuous Rolling Mill	145
	Haisu Zhi	

19	Study on Numerical Control Machines Performance Test Platform	153
	Juan Song and Ming Li	
20	Minimum Entropy Fault-Tolerant Control of the Non-Gaussian Stochastic Distribution System.	159
	Lina Yao, Wei Cao and Hong Wang	
 Part III Web Science, Engineering and Applications		
21	Real-Time Ray Tracing Dynamic Scenes Based on WebGL	169
	Sam At Chea and Fuyan Liu	
22	Dynamic Optimization of Web Services Composition Using Scale-Free Network	175
	Yang Zhang and Yan Ma	
23	Instant Messaging IM Virus Spread of Complex Network	185
	Zongjiang Wang	
24	Transactional Automation Model of Services Selection for Web Service Composition	195
	Liping Chen	
25	A Formal Transaction Model for Reliable Web Service Composition	203
	Weitao Ha	
26	Domain Authentication Protocol Based on Certificate Signcryption in Ipv6 Network	213
	Longjun Zhang, Jianhe Zhang, Ang Xia, Tianqing Mo and Liyi Zhao	
27	A Non-Template Approach to Purify Web Pages Based on Word Density	221
	Fei Hu, Ming Li, Yi Nan Zhang, Tao Peng and Yang Lei	
28	Study of Web Date-Mining Technology in the Electronic Commerce Application	229
	Kebin Huang and Zheng Zeng	

Part IV Information Technology and Applications

29	A Study on Construction of the Flood Emergency Program System	237
	Yu Rong Yu, Hua Xiao and Wei-chen Hao	
30	Study of Collaborative Learning Based on Blackboard e-Education Platform	245
	Mei Zhang, Jianjie Du, Xiangfei Guo and Xiaoli Huang	
31	Research on Ideological and Political Education in Universities Based on SWOT Analysis Technology.	253
	Binghui Liang	
32	Entrepreneurship Differences Between Chinese and Foreign Country Students Based on Logistic Model	261
	Tao Xiong and Jianfeng Cui	
33	Teacher Abilities Evaluation Based on Gray Theory	269
	Yong Liu	
34	Human Resource Management Strategy in Corporate Social Responsibility	277
	Hui Yu	
35	Study of Online Bank in E-Commerce Environment	285
	Li Huang	
36	Study of the Function of University Library Based on Serving Society	293
	Xiaoqin Guo	
37	Role of Information Systems in Supply Chain Management	299
	Hemin Da	
38	On the Online Financial Services in the Digital Age.	305
	Shuanghong Liu	
39	Study on Independent Innovation Scheme of Electronic Information Industry	313
	Qing Li Zhang	

40	Network Moral Education for Higher Vocational College Students	319
	Xiao-Ling Huang	

Part V Information Security and Network Protection

41	Improvement of Chopchop Attack.	329
	Qingbing Ji, Lijun Zhang and Fei Yu	
42	Reliability Analysis of Triple-Redundant CompactPCI SBC	337
	Peng Wang and Yan Bai	
43	Research on Security Mechanism of Sharing System Based on Geographic Information Service	345
	Guang-shi Li	
44	Analysis on Technical Risk of Product Development	353
	Yuxian Zhang, Xiaoshuang Men, Hong Wang and Qinghua Zhou	
45	Failure Analysis of Power Battery Under High Environment Temperatures in Impact Test	361
	Hongwei Wang, Haiqing Xiao, Yanling Fu, Hongmei Yu and Chao Wang	
46	Patent Information Extraction from XMLs	367
	Yanling Wang and Guancan Yang	
47	Intrusion Prevention System Design	375
	Zongjian Wang and Xiaobo Li	
48	The Model of Credit Risk Discriminant in Online Trading.	383
	Hao Zhang	

Part VI Artificial Intelligence

49	Evaluation of the Automatically Built IT Security Domain-Specific Vocabulary	391
	Liping Qian and Lidong Wang	
50	Patent Analysis Based on Information in XML Documents	399
	Yanling Wang	

51	Design of Recognition System for Rice Planthopper over Digital Signal Processor.	407
	Xiuguo Zou	
52	Chinese Standard Comparative Sentence Recognition and Extraction Research.	415
	Liqiang Xing and Lu Liu	
53	Intelligent Terminal Application and Management in College Class Ecology.	423
	Lijia Wang, Danhua Wu and Jiankang Zhang	
54	Intelligent Application Service System Based on VNC.	431
	Jing Li	
55	Offshore Wind Speed Load Predicting Based on GA-SVM.	439
	Hong Tang, Huaqiang Zhang and Xiujuan MA	
56	Research on the Methods of Efficiency Evaluation of Logistic Enterprises Based on Gray-Fuzzy Theory.	449
	Zheng Li, Yang Li, Xue Yu Mi and Hong Mei Jia	
57	Clustering Algorithm Based on Territory Game in Wireless Sensor Networks.	457
	Dan Huang, Yong Zhang and Ziwei Zheng	
58	Optimality Conditions for Non-Smooth Multi Objective Semi-Infinite Programming.	467
	Xiaoyan Gao	
 Part VII Mathematics and Computation		
59	Study of Real Estate Bubble Measurement.	477
	Ning Zheng, Bo Dong and Rong Rong Shen	
60	Measuring Energy Consumption and Carbon Dioxide Emissions of Star-Rated Hotels.	487
	Zi Tang	
61	Study on Initial Speed of Methane Emission Computation.	493
	Zhou Zhang and Min Zhou	

62	Discrete Construction of Network Verona Diagram for Lines. . .	499
	Qing hong Zhang, Yi li Tan and Xin Liu	
63	Financial Risk Early Warning Model	507
	Hong Wang, Jun Zheng, Lu Yang Gao and Hui Wang	
64	Threshold Calculation and Prediction Methods of Slope Deformation	517
	Chao Chen, De Qing Gan and Zhong Jian Yang	
65	Shanghai World Expo Influential Quantitative Assessment Model.	527
	Ran-Wang Jin, Jun-Guo Ya, Jie-Geng Shu and Juan Zhao Tong	
66	Analysis and Application of New Shares Based on Decision Tree.	537
	Xiu Yan Chang, Xin Yi Zhao and Bao Xing Yue	
67	Supermarket Application Based on Queueing Theory	545
	Tongjuan Zhao and Chunhui He	
68	Study of Determining Satisfaction Weight Based on KPCA	553
	Xinghuo Wan, Wenyi Zhang and Shuming Guan	
69	A Special Class of Matrix in Three-Dimensional Combinatorial Matrix Class	563
	Junna Jiang, Bing Han and Hong Wang	
70	Study on Innovative Teaching Mode of Mathematics	569
	Youcai Xue	
 Part VIII Information Management Systems and Software Engineering		
71	Research on an Intelligent Distance Education System Based on Multi-agent	579
	Wen Shu Duan, Yan Ma, Lun Peng Liu and Tian Ping Dong	
72	Research of Enterprise Knowledge Portal System for Product R&D	587
	Ben-Gong Yu and Shu Ping Zhao	

73	GPS-Based On-Board Road Test System for Automotive ABS Evaluation and Calibration	595
	Wenlin Wang and Weidong Chen	
74	Network Automatic Test System Based on Database Middleware.	603
	Jia Zhiyan and Xie Han	
75	Underground Pipelines Information System Based on Vector Metagraph	611
	Fengguang Xiong and Xie Han	
76	Logistics Management System Based on Workflow	617
	Xiao-Hui Yan and Lei-Jun LI	
77	Developmental Model of Industrial Cluster in Chongqing Liangjiang New District	625
	Anyun Li	
78	A Taxonomy System for Information System Requirements	633
	Bin Chen and Qiang Dong	
79	Design of Natural Gas Pipeline Inspection System Based on Smart Phone	645
	Ling Luo	

Part IX Multimedia Aechnology and Applications

80	The Affective Adjustment Material Selection Model Used in E-Learning Environment	655
	Xiang Wei Lai, Chen Lu, Guang Yuan Lui and Feng Ru Lui	
81	Face Detection-Based Video Key Frame Extraction	663
	Jian Yin and Su Huan Wang	
82	Research on the Image Sensor Imaging System	669
	Yao Cheng and Xiang Hui Yuan	
83	Research on Video Abstraction	675
	Linglin Wu, Xiaoyu Wu, Lei Yang and Linwan Liu	
84	Studies of Quadratic Watermark Based on MD5	683
	Shibo Qiu, Taolin Ma and Lei Liu	

85	Research on Machine Vision-Based Alignment System in PCB Inkjet Printer	689
	Zhuang Chen, Hui Jiang, Yin Qian Wang and Yu Qiang Jing	
86	Survey of Image Mosaics Technologies	699
	Lansu Nie, Yan Tang and Qin Xu	
87	Real-Time Rendering of Forest Scenes Based on LOD	709
	Hao Li, Fuyan Liu and Shibo Yu	
88	An Improved Method Based on Quaternion and Planar Segmentation Fit in 3D Registration	717
	Hongke Wang	
89	Research on Integration of Multi-Information of Digital Mine Based on VR Technology	725
	Miao Yu, Jianping Chen, Feng Liang, Pingping Yu and Lili An	
90	An Active RFID Indoor Positioning System Mechanism Based on Sleep Mode	733
	Jian-bin Xue, Wen-hua Wang and Ting Zhang	

Part X Intelligent Evolutionary Algorithms

91	Explorations on Experimental Teaching Reform of Mechatronic System Design Curriculum for Local University	743
	Hongsheng Hu and Jian Cao	
92	PID Parameters Tuning Based on Self-Adaptive Hybrid Particle Swarm Optimization Algorithm	751
	Dongsheng Shan, Chao Li, Xiaobo Qiu and Wei Wei	
93	Fuzzy ART-BP Algorithm Based on Intelligent Ink Presetting Technology.	759
	Minjie Wang, Min Wang and Tao Zan	
94	PID Parameter Tuning Based on Multi Universe Parallel Genetic Algorithm	765
	Xianghua Sun	
95	A Clustering Method of Combining Grid and Genetic Algorithm in Wireless Sensor Networks.	773
	Jun Zeng	

96	Adaptive Function of Genetic Algorithm Optimization and Application	781
	Jiang-Bo Huang	
97	Large-Scale Interacting Particle System Simulation Using OpenGL	789
	Fangjie Tao, Fuyan Liu and Gang Liu	
98	Elephant Flows Identification Based on Dynamic Multiple Filters Algorithm	797
	Lei Bai and Jinshun Wu	
 Part XI Manufacturing Engineering and Management		
99	Magnetic Studies in Complexes Derived from the Reaction of Fe(III) Salen Base Complexes and Hexacyanoferrate	807
	Zhonghui Ye, Qing Lin, Yun He, Min Liu and Yanfang Xia	
100	Risk and Uncertainty in Project Portfolio Management	815
	Na Guo and Shiwang Yu	
101	Test Case Generation Based on MSC TTCN-3.	823
	Wenhong Hu and Xinxin Sun	
102	Risk Analysis on the Process of Energy Management Contract Project.	831
	Jing-min Wang and Liang Zhou	
103	Chinese Agricultural Industry Chain Benefit Coordination.	839
	Xiaohong Xiao	
104	Automotive Integrated Service System.	845
	Chang-e Dou, Jing Jiang, Jiexing Wang and Wei Han	
105	Influence Factors and Countermeasures for Organization Knowledge Sharing.	853
	Baowei Zhang	
106	Dual Commitments and Knowledge Sharing in Supply Chain Collaborative Innovation	859
	Xu-Mei Zhang, Xiao-Ping Mao and Xiang-Yu Liu	

Contents	xxv
107 Study on Management of College Automation Laboratory	869
Chaoran Kong, Wenbiao Huang and Wanjun Chen	
108 Study on the Impact of Pharmaceutical Enterprises	
Relationship Marketing on Customer Loyalty	877
Huancheng Gao	
Author Index	885
