

# Contents

<b>Strategy and Drivers for CO<sub>2</sub> (Re)use . . . . .</b>	<b>1</b>
G. Centi, M. De Falco, G. Iaquaniello and S. Perathoner	
<b>Realizing Resource and Energy Efficiency in Chemical Industry by Using CO<sub>2</sub> . . . . .</b>	<b>27</b>
G. Centi, S. Perathoner and G. Iaquaniello	
<b>Renewable Syngas Production via Dry Reforming of Methane . . . . .</b>	<b>45</b>
R. Navarro, B. Pawelec, M. C. Alvarez-Galván, R. Guil-Lopez, S. Al-Sayari and J. L. G. Fierro	
<b>Reuse of CO<sub>2</sub> to Make Methanol Using Renewable Hydrogen. . . . .</b>	<b>67</b>
L. Barbato, G. Iaquaniello and A. Mangiapane	
<b>Ionic Liquids Applied to CO<sub>2</sub> Fixation and Conversion . . . . .</b>	<b>81</b>
B. Masciocchi, C. Chiappe and C. S. Pomelli	
<b>Sustainability in Carbon Capture and Utilization. Biodiesel from Microalgae . . . . .</b>	<b>95</b>
E. N. D’Addario	
<b>Hydrogen Production by Solar Steam Reforming as a Fuel Decarbonization Route . . . . .</b>	<b>109</b>
A. Giaconia	
<b>CO<sub>2</sub> Conversion to CH<sub>4</sub>. . . . .</b>	<b>123</b>
V. Barbarossa, C. Bassano, P. Deiana and G. Vanga	
<b>Advances in Catalysts and Processes for Methanol Synthesis from CO<sub>2</sub>. . . . .</b>	<b>147</b>
G. Centi and S. Perathoner	

<b>Methanol Production from CO<sub>2</sub> via Reverse-Water-Gas-Shift Reaction</b> . . . . .	171
M. De Falco, S. Giansante, G. Iaquaniello and L. Barbato	
<b>Carbon Capture and Utilization in Germany</b> . . . . .	187
A. Bazzanella	
<b>Index</b> . . . . .	193

CO<sub>2</sub>: A Valuable Source of Carbon

De Falco, M.; Iaquaniello, G.; Centi, G. (Eds.)

2013, XVI, 194 p., Hardcover

ISBN: 978-1-4471-5118-0
