

# Contents

## Part I ACL Injury: The Clinical Problem

<b>1 ACL Injury Epidemiology .....</b>	<b>3</b>
Patrick Vavken and Martha M. Murray	
<b>2 History of ACL Treatment and Current Gold Standard of Care .....</b>	<b>19</b>
Martha M. Murray	
<b>3 ACL Clinical Outcomes .....</b>	<b>29</b>
Carolyn M. Hettrich and Kurt P. Spindler	
<b>4 ACL Treatment in the Skeletally Immature Patient .....</b>	<b>41</b>
Patrick Vavken and Martha M. Murray	

## Part II ACL Injury: The Biologic Problem

<b>5 The Biology of the Normal ACL .....</b>	<b>63</b>
Martha M. Murray and Braden C. Fleming	
<b>6 The Role of Inflammation and Blood Cells in Wound Healing .....</b>	<b>73</b>
Linda H. Chao and Martha M. Murray	
<b>7 The ACL Response to Injury .....</b>	<b>91</b>
Martha M. Murray	
<b>8 The Biology of Impaired Healing of Joint Tissues .....</b>	<b>101</b>
Martha M. Murray	

## Part III Translational Medicine: In Vitro and In Vivo Models

<b>9 Translational Medicine .....</b>	<b>115</b>
Patrick Vavken	

<b>10 In Vitro Models of ACL Injury</b> .....	123
Patrick Vavken and Braden C. Fleming	
<b>11 In Vivo Models of ACL Injury (Central Defect, Porcine, Ovine, Canine)</b> .....	139
Benedikt Lorenz Proffen and Martha M. Murray	
<b>12 Tissue Engineering of Ligaments and Tendons</b> .....	167
Patrick Vavken and Martha M. Murray	
<b>13 Outcome Assessment for ACL Tissue Engineering</b> .....	179
Patrick Vavken, Martha M. Murray, and Braden C. Fleming	
<b>Part IV Stimulating Healing of the ACL Using Tissue Engineering</b>	
<b>14 Scaffolds and Biologic Additives for ACL Surgery</b> .....	203
Ryu Yoshida and Martha M. Murray	
<b>15 Use of Biologics to Treat Partial ACL Tears</b> .....	215
Martha M. Murray	
<b>16 Can We Get a Complete ACL Tear to Heal?</b> .....	225
Carla Maria Haslauer and Martha M. Murray	
<b>17 The Effects of Platelets and Their Concentration on ACL Healing</b> .....	239
Patrick Vavken	
<b>18 The Effects of WBCs and RBCs on Ligament Healing</b> .....	249
Linda H. Chao and Martha M. Murray	
<b>19 Safety of the Bio-enhanced Repair</b> .....	265
Elise M. Magarian and Martha M. Murray	
<b>20 Reinnervation and Revascularization in Engineered ACL Healing</b> .....	273
Benedikt Lorenz Proffen and Martha M. Murray	
<b>21 Bio-enhancement of ACL Graft Healing</b> .....	285
Braden C. Fleming	
<b>22 The Effects of Age and Skeletal Maturity on Healing of the Anterior Cruciate Ligament</b> .....	301
Linda H. Chao and Martha M. Murray	
<b>Conclusion</b> .....	309
<b>Index</b> .....	311

The ACL Handbook

Knee Biology, Mechanics, and Treatment

Murray, M.M.; Vavken, P.; Fleming, B. (Eds.)

2013, XI, 317 p., Hardcover

ISBN: 978-1-4614-0759-1
