## Part I The Pathogenesis of Medical Device-Associated Infection

<b>1 Biomaterial-Associated Infection: A Perspective from the Clinic.....</b>	<b>3</b>
Werner Zimmerli and Andrej Trampuz	
<b>2 <i>Staphylococcus epidermidis</i> in Biomaterial-Associated Infections.....</b>	<b>25</b>
Dietrich Mack, Angharad P. Davies, Llinos G. Harris, Rose Jeeves, Ben Pascoe, Johannes K.-M. Knobloch, Holger Rohde, and Thomas S. Wilkinson	
<b>3 Staphylococcal Virulence Factors.....</b>	<b>57</b>
Christine Heilmann and Friedrich Götz	
<b>4 <i>Propionibacterium acnes</i>: An Emerging Pathogen in Biomaterial-Associated Infection .....</b>	<b>87</b>
Sheila Patrick and Andrew McDowell	
<b>5 Bridging the Gap Between In Vitro and In Vivo Evaluation of Biomaterial-Associated Infections .....</b>	<b>107</b>
Guruprakash Subbiahdoss, Joana F. da Silva Domingues, Roel Kuijter, Henny C. van der Mei, and Henk J. Busscher	
<b>6 Biomaterial-Dependent Characteristics of the Foreign Body Response and <i>S. epidermidis</i> Biofilm Interactions.....</b>	<b>119</b>
James M. Anderson and Jasmine D. Patel	
<b>7 Dendritic Cell–Biomaterial Interactions: Implications for the Onset and Development of the Foreign Body Response.....</b>	<b>151</b>
Antonio S. Sechi and Behnaz Shokouhi	

<b>8</b>	<b>Tissue Colonization in Biomaterial-Associated Infection .....</b>	<b>175</b>
	Sebastian A.J. Zaat	
<b>9</b>	<b>Systemic Treatment Options for Medical Device-Associated Infection .....</b>	<b>209</b>
	Oscar Murillo, Jaime Lora-Tamayo, and Javier Ariza	
<b>10</b>	<b>Preventive Measures Against Transcutaneous Device Infections .....</b>	<b>229</b>
	Paul H.S. Kwakman and Sebastian A.J. Zaat	
<b>11</b>	<b>Infections Associated with Implanted Dental Devices .....</b>	<b>249</b>
	Georgios N. Belibasakis, Thomas Thurnheer, and Nagihan Bostanci	
<b>12</b>	<b>Animal Models of Orthopedic Implant-Related Infection .....</b>	<b>273</b>
	Lorenzo Calabro, Cameron Lutton, Ahmed Fouad Seif El Din, R. Geoff Richards, and T. Fintan Moriarty	
 <b>Part II Biomaterial-Based Strategies to Reduce Medical Device-Associated Infection</b>		
<b>13</b>	<b>Antimicrobial Medical Devices in Preclinical Development and Clinical Use .....</b>	<b>307</b>
	Benjamin D. Brooks, Amanda E. Brooks, and David W. Grainger	
<b>14</b>	<b>Silver Containing Biomaterials.....</b>	<b>355</b>
	Neil Poulter, Krasimir Vasilev, Stefani S. Griesser, and Hans J. Griesser	
<b>15</b>	<b>Quaternary Ammonium Compounds .....</b>	<b>379</b>
	J.A. Loontjens	
<b>16</b>	<b>Anti-adhesive and Antibacterial Polymer Brushes.....</b>	<b>405</b>
	K.G. Neoh, Z.L. Shi, and E.T. Kang	
 <b>Part III Clinical Applications, Case Studies</b>		
<b>17</b>	<b>Infection in Fracture Fixation: Device Design and Antibiotic Coatings Reduce Infection Rates .....</b>	<b>435</b>
	Gerhard Schmidmaier, Abhay D. Gahukamble, T. Fintan Moriarty, and R. Geoff Richards	
<b>18</b>	<b>The Indwelling Bladder Catheter: Attempts to Prevent Infection and the Development of Bacterial Biofilms .....</b>	<b>455</b>
	David Stickler and Roger Feneley	
<b>19</b>	<b>Antimicrobial-Modified Vascular Catheters .....</b>	<b>485</b>
	Rabih O. Darouiche	

<b>20</b>	<b>Topical Antimicrobial-Containing Biomaterials for Peri-Implant Infections in the Oral Cavity</b> .....	<b>505</b>
	Stefan Renvert and G. Rutger Persson	
<b>21</b>	<b>Preventive Strategies in VAP: Focus on Silver-Coated Endotracheal Tubes</b> .....	<b>531</b>
	Marin Kollef	
	<b>Index</b> .....	<b>557</b>

Biomaterials Associated Infection

Immunological Aspects and Antimicrobial Strategies

Moriarty, F.; Zaat, S.A.J.; Busscher, H.J. (Eds.)

2013, XIV, 566 p., Hardcover

ISBN: 978-1-4614-1030-0
