## Part I Immigration Theory and Evidence

<b>2</b>	<b>The Determinants of International Migration: Theory . . . . .</b>	<b>27</b>
	Chapter Overview . . . . .	27
2.1	Early Migration Theory . . . . .	29
2.1.1	Pre-1960 Theory . . . . .	29
2.1.2	Ravenstein and Zipf . . . . .	30
2.1.3	The Standard Modern Theory of Migration . . . . .	31
2.1.4	Further Influences on Migration . . . . .	37

2.2	The Modern Model of Immigration . . . . .	40
2.2.1	The First Borjas Model . . . . .	40
2.2.2	Borjas' 1991 Model . . . . .	46
2.2.3	Recent Extensions of the Borjas Model . . . . .	47
2.3	The Family or Household as the Decision-Making Unit . . . . .	52
2.3.1	Conflicting Interests and the Family Migration Decision . . . . .	52
2.3.2	Mincer's Model . . . . .	53
2.3.3	Family Migration as a Portfolio Decision . . . . .	53
2.4	Summary and Conclusions . . . . .	54
	References . . . . .	55
<b>3</b>	<b>Why People Immigrate: The Evidence . . . . .</b>	<b>59</b>
	Chapter Overview . . . . .	59
3.1	Regression Models of Immigration . . . . .	60
3.1.1	Empirical Models of Regional Migration . . . . .	60
3.1.2	The Gravity Model of International Migration . . . . .	62
3.1.3	Some Econometric Problems Related to the Gravity Model . . . . .	65
3.2	The Choice of Variables in Statistical Models of Immigration . . . . .	65
3.2.1	Three Examples . . . . .	66
3.2.2	Representing Income Differences . . . . .	66
3.2.3	Representing Migration Costs . . . . .	67
3.2.4	Representing Source Country Development . . . . .	67
3.2.5	Representing Immigration Restrictions . . . . .	68
3.2.6	The Empirical Evidence on the Determinants of Migration . . . . .	69
3.2.7	Evidence on Worldwide Migration . . . . .	70
3.2.8	Evidence on Migration to Groups of OECD Countries . . . . .	70
3.2.9	Evidence on US Immigration . . . . .	71
3.2.10	Immigration to Other Countries . . . . .	72
3.2.11	Summarizing the Results . . . . .	73
3.3	Summary and Concluding Remarks . . . . .	74
3.3.1	The Power of Statistical Models . . . . .	75
3.3.2	The Way Forward . . . . .	76
	References . . . . .	76
<b>4</b>	<b>Who Immigrates? Theory and Evidence . . . . .</b>	<b>79</b>
	Chapter Overview . . . . .	79
4.1	Immigrant Selection: The Chiswick vs. Borjas Debate . . . . .	81
4.1.1	Some Unfortunate Terminology . . . . .	82
4.1.2	The Chiswick View . . . . .	82
4.1.3	The Borjas Model . . . . .	84
4.1.4	A More Detailed Look at the Borjas Model . . . . .	85
4.1.5	Selection by Observed Characteristics . . . . .	88

4.2	Extensions of the Borjas Model . . . . .	88
4.2.1	Variable Migration Costs and Migrant Selection . . . .	88
4.2.2	Credit Constraints and Immigrant Selection . . . . .	90
4.2.3	Family Migration and Selection Bias . . . . .	91
4.3	The Empirical Evidence on Immigrant Selectivity . . . . .	93
4.3.1	Borjas' Empirical Results . . . . .	93
4.3.2	Further Tests of Borjas' Model . . . . .	94
4.3.3	Tests Based on Counterfactual Density Functions . . .	95
4.4	The Asymmetric Information Model . . . . .	96
4.4.1	Kwok and Leland's Model . . . . .	97
4.4.2	Restoring Symmetric Information . . . . .	98
4.5	The Theory of Immigrant Assimilation . . . . .	99
4.5.1	The Chiswick Study of Assimilation . . . . .	99
4.5.2	Potential Bias in Chiswick's Results . . . . .	100
4.5.3	Borjas' Empirical Results . . . . .	102
4.6	Addressing Borjas' Critique . . . . .	103
4.7	Conclusions . . . . .	104
	References . . . . .	105
<b>5</b>	<b>The Effects of Immigration on the Destination</b>	
	<b>Economy: The Theory . . . . .</b>	<b>109</b>
	Chapter Overview . . . . .	109
5.1	The Macro Effects of Immigration . . . . .	110
5.1.1	Homogeneous Labor with Fixed Capital . . . . .	110
5.1.2	Homogeneous Labor with Variable Capital . . . . .	114
5.1.3	Heterogeneous Labor . . . . .	116
5.1.4	Heterogeneous Labor with Constant Capital . . . . .	117
5.1.5	Heterogeneous Labor and Perfectly Elastic Capital Supply . . . . .	117
5.1.6	How Big Is the US Immigrant Surplus? . . . . .	117
5.2	Detailing the Distributional Effects of Immigration . . . . .	118
5.2.1	The Johnson Model (1980) . . . . .	118
5.2.2	The Altonji and Card Model (1991) . . . . .	119
5.2.3	The Ottaviano and Peri Model . . . . .	120
5.3	Long-Run Adjustment Processes . . . . .	122
5.3.1	Internal Migration Responses . . . . .	122
5.3.2	Multiple Goods . . . . .	123
5.3.3	Choice of Technology . . . . .	124
5.3.4	The Demand Effect of Immigration . . . . .	124
5.4	The Demand Effect of Immigration . . . . .	125
5.4.1	Say's Law of Immigration . . . . .	125
5.4.2	Regional Migration and Local Demand . . . . .	126
5.4.3	A Few Models of Immigrant Demand Effects . . . . .	127
5.4.4	Bodvarsson and Van den Berg's Lexington Model . . .	128

5.4.5	The More General Case . . . . .	129
5.4.6	Further Models of Immigrant Demand Effects . . . . .	130
5.5	Concluding Remarks . . . . .	131
	References . . . . .	133
<b>6</b>	<b>How Immigration Impacts the Destination Economy:</b>	
	<b>The Evidence . . . . .</b>	<b>135</b>
6.1	Introduction . . . . .	135
6.2	The Spatial Correlation Method . . . . .	136
6.2.1	Cross Section Applications . . . . .	137
6.2.2	Dealing with Simultaneity and Spurious Correlation . . . . .	138
6.2.3	Recent Applications of the Spatial Correlation Method . . . . .	141
6.2.4	Applications of the Unexpected Exogenous Supply Shock Method . . . . .	144
6.2.5	The Mariel Boatlift . . . . .	145
6.2.6	Russian Immigrants in Israel . . . . .	146
6.2.7	Assessing the Spatial Correlation Method . . . . .	148
6.3	The Production Function Method . . . . .	148
6.3.1	Grossman's Pioneering Production Study . . . . .	149
6.3.2	Gang and Rivera-Batiz . . . . .	150
6.3.3	Assessing the Production Function Method . . . . .	151
6.4	The Skill Cell Approach . . . . .	152
6.4.1	Borjas' Use of National Data Versus Regional Data . . . . .	152
6.4.2	Ottaviano and Peri's Extension of Borjas' Skill Cell Model . . . . .	154
6.4.3	Other Types of Labor Market Cells . . . . .	156
6.5	Concluding Remarks . . . . .	157
	References . . . . .	158
<b>7</b>	<b>Estimating Immigration's Impact: Accounting</b>
