

Contents

1	Discovery and Determination of Ascorbic Acid	1
1.1	Chemical Nature.	1
1.2	Determination of Ascorbate in Plants	3
	References	5
2	Biological Role of Ascorbate in Plants	7
2.1	Role in Plant Growth and Development	8
2.1.1	Cell Division	9
2.1.2	Cell Wall Metabolism and Cell Expansion	9
2.1.3	Shoot Apical Meristem Formation	11
2.1.4	Root Development	16
2.1.5	Photosynthesis	16
2.1.6	Regulation of Florescence	17
2.1.7	Regulation of Leaf Senescence	18
2.2	The Cofactors for Enzyme Activity	20
2.3	Plant Antioxidation Capacity	21
2.4	Heavy Metal Evacuation and Detoxification	23
2.5	Role in Stress Defense	23
	References	28
3	Ascorbate Biosynthesis in Plants	33
3.1	D-Man/L-Gal Pathway	34
3.2	Myoinositol Pathway	35
3.3	Galacturonate Pathway	36
3.4	Gulose Pathway	38
3.5	VTC2 Cycle	38
	References	40

4	The Oxidization and Catabolism of Ascorbate	43
	References	45
5	Recycling of Ascorbate	47
	References	47
6	Distribution and Transport of Ascorbate	49
	References	52
7	Enzymes Involved in Ascorbate Biosynthesis and Metabolism in Plants	55
7.1	Phosphomannose Isomerase (PMI: EC 5.3.1.8).	55
7.2	Phosphomannomutase (PMM: EC 5.4.2.8).	56
7.3	GDP-D-Mannose Pyrophosphorylase (GMP: EC 2.7.7.22)	57
7.4	GDP-D-Mannose-3,5-Epimerase (GME: EC 5.1.3.18)	59
7.5	GDP-L-Galactose Phosphorylase (GGP: EC 2.7.7.69)	61
7.6	L-Galactose-1-Phosphate Phosphatase (GPP: EC 3.1.3.25)	62
7.7	L-Galactose Dehydrogenase (GalDH: EC 1.1.1.117)	64
7.8	L-Galactono-1,4-Lactone Dehydrogenase (GLDH: EC 1.3.2.3)	65
7.9	Ascorbate Oxidase (AO: EC 1.10.3.3).	66
7.10	Ascorbate Peroxidase (APX: EC 1.11.1.11)	68
7.11	Dehydroascorbate Reductase (DHAR: EC.1.8.5.1)	71
7.12	Monodehydroascorbate Reductase (MDHAR: EC.1.6.5.4)	72
7.13	Myoinositol Oxygenase (MIOX: EC 1.13.99.1)	73
7.14	Alternative Pathway and Enzyme for Ascorbate Biosynthesis and Metabolism	74
7.14.1	L-Gulonono-1,4-Lactone Oxidase (GLOase: EC 1.1.3.8)	74
7.14.2	D-Galacturonate Reductase (GalUR: EC 1.1.1.203). . . .	75
7.15	The Multi-Gene Family Involved in Ascorbate Biosynthesis and Metabolism	75
	References	77
8	Regulation of Ascorbate Synthesis in Plants.	85
8.1	Growth and Postharvest Condition	85
8.2	Light Regulation.	87
8.3	Plant Growth Regulator.	89
8.4	Jasmonates Regulation	90
8.5	Feedback Regulation.	90
8.6	Coordination and Compensation.	91
8.7	Transcription Factor	93
	References	94

9	Ascorbate in Tomato, a Model Fruit	99
	References	103
10	Metabolic Modification of Ascorbate in Plants	105
	10.1 Overexpression and Ectopic Expression	106
	10.2 Gene Suppression	108
	References	109
11	Regulating Ascorbate Biosynthesis and Metabolism for Stress Tolerance in Plants	111
	References	114

Ascorbic Acid in Plants

Biosynthesis, Regulation and Enhancement

Zhang, Y.

2013, XIV, 117 p. 14 illus., 9 illus. in color., Softcover

ISBN: 978-1-4614-4126-7
