Part I Extremal Fuzzy Dynamic Systems: Theory

1	Introduction	3
2	Monotone Measure Probability Representations and Weighted Fuzzy Statistics	25
2.1	On Campos–Bolanos Representations (CBR) of Monotone Measures	25
2.1.1	Introduction	25
2.1.2	A Monotone Measure on a Finite Set and a Monotone Expectation: Campos–Bolanos Probability Representation of a Monotone Measure	26
2.1.3	Choquet Capacities of Order Two in CBR	30
2.1.4	Fuzzy Expected Value (FEV): The Campos–Bolanos Probability Representation	32
2.1.5	Dempster–Shafer’s Belief Structure and Its CBR	33
2.1.6	Possibility Measure and Its CBR	34
2.1.7	Monotone Measure Associated with a Belief Structure and Its CBR	36
2.1.8	Sugeno’s λ -Additive Monotone Measures and Their Probability Representation	37
2.1.9	Conclusion	37
2.2	On the Murofishi–Sugeno Representation (MSR) of Monotone Measures	38
2.2.1	Choquet Capacities of Order Two in MSR	40
2.2.2	Distance Between Monotone Measures in MSR	44
2.2.3	Connection Between CBR and MSR	47
2.2.4	An Example of Connections	48
2.3	Monotone Measure Restoration Problem Based on the CBR	51
2.3.1	Introduction	51
2.3.2	Preliminary Concepts	53

2.3.3	Problem of Monotone Measure Restoration	57
2.3.4	Conclusions.....	63
2.4	Insufficient Expert Data and Fuzzy Averages	63
2.4.1	Introduction.....	64
2.4.2	Monotone Measure and the FEV	66
2.4.3	Fuzzy Expected Interval	71
2.4.4	Weighted Fuzzy Expected Value	75
2.4.5	Weighted Fuzzy Expected Interval	77
2.4.6	Weighted Fuzzy Expected Value with Respect to the Monotone Measure ($WFEV_{gl}$)	78
2.4.7	Generalized Weighted Fuzzy Expected Value and the Generalized Weighted Fuzzy Expected Interval	81
2.4.8	Examples	87
2.5	Conclusions	93
3	Extended Extremal Monotone Measures	95
3.1	Extended Lower and Upper Monotone Measures	96
3.2	Transformation Theorems for Extended Lower and Upper Fuzzy Sugeno Integrals.....	101
3.3	Extended Extremal Conditional Monotone Measures.....	118
3.4	Extremal Fuzzy Time Moments and Intervals, and Their Structures	120
3.5	Examples of Construction of Extremal Fuzzy Time Intervals	127
4	Extended Extremal Monotone Measures on Composition Products of Measurable Spaces	131
4.1	Extended Extremal Monotone Measures... ..	132
4.2	H -Operations on Extremal Monotone Measures and Their Algebraic Structures	145
4.3	n -Tuple Composition Extended Extremal Monotone Measures.	156
5	Modeling of Extremal and Controllable Extremal Fuzzy Processes ..	165
5.1	Description of a General Model of an Extremal Fuzzy Dynamic System	167
5.2	Continuous Extremal Fuzzy Processes	171
5.3	Discrete Extremal Fuzzy Processes	179
5.4	Continuous Controllable Extremal Fuzzy Processes	184
5.5	Discrete Controllable Extremal Fuzzy Processes	194
5.6	Complementary Extremal Fuzzy Processes	197
5.7	Conclusions	198
6	Identification of Fuzzy-Integral Models of Extremal Fuzzy Processes	201
6.1	Models of Continuous Extremal Fuzzy Processes	204
6.2	Models of Discrete Stationary Extremal Fuzzy Processes	215

6.3	Estimation of the Quality of Fuzzy-Integral Models of Extremal Fuzzy Processes	225
6.4	Conclusions	227
7	Optimization of Continuous Controllable Extremal Fuzzy Processes and the Choice of Decisions	229
7.1	Optimization Problems of Extremal Fuzzy Processes	231
7.2	Fuzzy Dynamic Programming Method for the Formation... ..	234
7.3	Definition of Fuzzy Relations of a Future Loss and a Current Gain	246
7.4	An Example of Constructing an Optimal Continuous EFDS Control	247
7.5	Conclusions	253
8	Problems of States Estimation (Filtration) of Extremal Fuzzy Processes	255
8.1	Filtration of Continuous Extremal Fuzzy Processes: A Fuzzy Observer	256
8.2	Construction of an Optimal Fuzzy Observer for a CEFP	272
8.3	A Discrete Fuzzy Observer	277
8.4	An Example of the Construction of an Optimal Fuzzy Observer for a CEFP	280
9	Summary of Chapters 3–8	289

Part II Extremal Fuzzy Dynamic Systems: Applications

10	Application of the Discrete Possibilistic Model of the EFDS to Expert Knowledge Streams	293
10.1	Introduction	294
10.2	Identification of a Finite Model of a Possibilistic Extremal Fuzzy Dynamic System	296
10.2.1	Model Definition	296
10.2.2	Converting to the Finite Model	298
10.2.3	Prediction Problem	300
10.3	Dempster–Shafer Temporalized Belief Structure in Decision-Making Systems	302
10.4	A Temporalization Procedure for a Body of Evidence	304
10.5	Dual Aggregation in the Dempster–Shafer Temporalized Belief Structure	306
10.6	Construction of the Information Precision Relation	308
10.7	Finite Possibilistic EFDS Model of Temporalized Belief Structure	312
10.8	Application of Dempster–Shafer Temporalized Belief Structure... ..	313

10.9	Application to A. Kaufmann's Theory of Expertons	319
10.9.1	Description of the Expertons Method	319
10.9.2	Confidence Interval Precision in the Method of Expertons	320
10.9.3	An Example of Application of the Method of Temporalized Expertons to Evaluate More Precise Risk Alternatives	323
10.10	Conclusion	342
11	Forecasting Decreasing Financial Risk of the Georgia-Based Organization Industria Kiri Ltd. by a Finite Model of a Possibilistic Dynamic System	347
11.1	Introduction	347
11.2	Identification Problem of a Discrete Possibilistic Dynamic System	350
11.2.1	Introduction	350
11.2.2	Model Definition	351
11.2.3	Moving to the Finite Model	352
11.2.4	Prediction Problem	353
11.3	The Role of Consulting Fuzzy Technologies in Research on Production Risks of Enterprises	355
11.4	Problem Statement and Detail	357
11.5	Information Gathering and Fuzzy Structuring	357
11.5.1	Fuzzification of Linguistic Variables	358
11.5.2	Construction of the Conceptual Model: Fuzzy Logic Rule Base	362
11.6	Construction of Prediction Modeled Trajectory on Fuzzy Terms of the Output Linguistic Variable	365
11.7	Conclusion	367
12	On the Genetic Algorithms Approach and Software Library	369
12.1	Genetic Algorithms Approach in Identification Problems of Discrete EFDS Models	369
12.2	On the Software Library for Discrete EFDS Modeling	370
	References	375
	Appendix A Glossary of Acronyms	383
	Appendix B Glossary of Symbols	385
	Index	393

Extremal Fuzzy Dynamic Systems

Theory and Applications
