

# Contents

<b>1</b>	<b>Introduction</b>	<b>1</b>
1.1	Why Bother: Is Transatlantic Science and Technology Cooperation Still Relevant in Today's Globalized World?	1
1.2	Background of This Report: Fulbright-Schuman Project and Motivation	2
1.3	Objectives and Orientation of This Report	3
1.4	Methodology Applied and Quantitative Indication	5
<b>2</b>	<b>Is European–U.S. Science and Technology Cooperation “Fit” to Working Jointly on “Grand Challenges”?</b>	<b>7</b>
2.1	The Wider Context: “Grand Challenges” at All Levels	7
2.2	Europe and the U.S.: Each Others' Most Important Partner, Yet	14
2.3	Background and Framework of European–U.S. Science and Technology Cooperation	16
<b>3</b>	<b>European–U.S. Science and Technology Cooperation Under the Current Conditions: The Study on Views, Reflections, Expectations of Key Stakeholders</b>	<b>19</b>
3.1	Setting the Scene: Identifying the Issues	19
3.1.1	Key Issues for Transatlantic European–U.S. S&T Cooperation: What are the Most Important Questions Regarding European–U.S. Science and Technology Cooperation	20
3.1.2	Perceptions of Promoting and Limiting Factors for European–U.S. S&T Cooperation	22
3.2	Diving into the Issues: The Substance of the Study	22

3.2.1	Role and Opportunities of European–U.S. S&T Cooperation . . . . .	24
3.2.2	Learning from Experiences . . . . .	37
3.2.3	Science Diplomacy and European–U.S. Cooperation . . . .	42
3.3	European–U.S. Science and Technology Cooperation from a Systems Sciences Point of View . . . . .	45
<b>4</b>	<b>Overall Conclusions and Policy Recommendations . . . . .</b>	<b>47</b>
4.1	Overall Conclusions . . . . .	47
4.1.1	Conclusion 1: The Economic Reality: Europe and the U.S.—Biggest Economic Players, Not Perceived and Appreciated as Such . . . . .	48
4.1.2	Conclusion 2: Complexity of Systems Perceived Likewise, Adds Complexity at Instruments Level and Creates Unattractive Framework for Cooperation . . . . .	48
4.1.3	Conclusion 3: Diverging Driving Interests and Priorities Rather Separate than Unify Europe and the U.S., Despite Pressing Global Challenges . . . . .	49
4.1.4	Conclusion 4: Shared Values Have Not Yet Led to Comprehensive Joint Visions and Coordinated Strategies . . . . .	49
4.1.5	Conclusion 5: “Typical”: Stereotypes, Misperceptions, and Prejudices Still Exist . . . . .	49
4.1.6	Conclusion 6: International Orientation and the “Hype” for China: Very Different Approaches . . . . .	50
4.1.7	Conclusion 7: Experiences in Strategic Transatlantic Cooperation: Existing Mechanisms are Unsatisfying, New Approaches are Needed . . . . .	50
4.2	Three Policy Recommendations . . . . .	51
4.2.1	Recommendation 1: Where to Go Together: Real Leadership Needed! . . . . .	51
4.2.2	Recommendation 2: Bold Actions Needed: Think Big and Pragmatic! . . . . .	53
4.2.3	Recommendation 3: Think Global: Europe and the U.S. Toward International Cooperation . . . . .	54
	<b>Annex . . . . .</b>	<b>55</b>
	<b>Index . . . . .</b>	<b>75</b>

Transatlantic Science and Technology  
Opportunities for Real Cooperation Between Europe  
and the United States

Herlitschka, S.E.

2013, XXX, 76 p. 13 illus., 9 illus. in color., Softcover

ISBN: 978-1-4614-4384-1
