Contents

Genetics of Multiple Myeloma 1
Steven Schuster, Esteban Braggio, and Rafael Fonseca

Gene Expression Signature in MGUS and Multiple Myeloma 17
Christoph J. Heuck, Sarah K. Johnson, Qing Zhang, and John D. Shaughnessy Jr.

Cap-Dependent Protein Translation Initiation in Multiple Myeloma: An Attractive Target for Therapy 43
Shirong Li, Jing Fu, and Suzanne Lentzsch

IRES-Dependent, Cap-Independent Translation in Multiple Myeloma 59
Joseph Gera and Alan Lichtenstein

The Role of Notch Signaling in Multiple Myeloma 77
Dehui Xu, Jinsong Hu, Elke De Bruyne, Eline Menu, Karin Vanderkerken, and Els Van Valckenborgh

Role of Bone Disease in the Pathogenesis of Multiple Myeloma 97
G. David Roodman

Index 121
