

# Contents

<b>1</b>	<b>Researching Tasks in Mathematics Classrooms.....</b>	<b>1</b>
	The Tasks Type and Mathematics Learning Project .....	1
	Using This Book .....	4
<b>2</b>	<b>Perspectives on Mathematics, Learning, and Teaching.....</b>	<b>7</b>
	The Mathematics It Is Intended that Students Learn .....	7
	Fostering a Breadth of Mathematical Actions .....	8
	Considering Students’ Perspectives on Mathematical Tasks .....	9
	Approaches to Teaching Mathematics .....	10
	Summary .....	12
<b>3</b>	<b>Tasks and Mathematics Learning.....</b>	<b>13</b>
	Introduction.....	13
	The Connection Between Tasks and Learning.....	14
	Types of Tasks for Mathematics Teaching.....	15
	The Role of Teacher Knowledge in Effective Task Use .....	15
	Teacher Beliefs, Attitudes, and Self-Goals .....	18
	Constraints .....	19
	Teacher Intentions .....	20
	Summary .....	21
<b>4</b>	<b>Using Purposeful Representational Tasks .....</b>	<b>23</b>
	A Rationale for Purposeful Representational Tasks .....	23
	Defining Purposeful Representational Tasks in the TTML Project .....	25
	An Example of a Purposeful Representational Task: Colour in Fractions.....	25
	Colour in Fractions .....	25
	Some Additional Examples.....	28
	Sourcing and Creating Purposeful Representational Tasks .....	29

Some Reactions from Project Teachers to Purposeful Representational Tasks.....	29
The Teachers' Definitions of the Tasks.....	29
Some Examples of the Tasks that Teachers Valued .....	30
The Advantages of Purposeful Representational Tasks as Seen by the Teachers .....	31
The Constraints on the Use of Purposeful Representational Tasks as Seen by the Teachers .....	32
The Challenges of Teaching Purposeful Representational Tasks: Learning to Use a Ratio Table.....	32
Making Cordial: Taking Opportunities .....	33
Bottles Task: Accepting Different Strategies .....	33
Medals at the Shrine: Operationalising the Tool.....	36
Summary .....	36
<b>5 Using Mathematical Tasks Arising from Contexts .....</b>	<b>39</b>
A Rationale for Tasks Built Around Practical Contexts .....	39
The Contextualised Tasks That Were the Focus of Our Project .....	42
A Specific Example of a Contextualised Task .....	43
Setting the Scene.....	43
Enabling Prompts.....	43
Students' Strategies.....	44
Building upon Students' Insights.....	45
Pulling the Lesson Together.....	45
Students as Problem Posers .....	46
Some Examples of Contextualised Tasks Which Teachers Valued .....	46
Some Reactions from Teachers to Contextualised Tasks.....	48
Teachers' Views on Advantages and Difficulties in Using Contextualised Tasks.....	49
Teacher Actions and Their Impact on Task Potential and Student Learning .....	50
Teacher A .....	50
Teacher B .....	52
Teacher C .....	53
Some Reflections on the Three Lessons .....	54
Sourcing and Creating Contextualised Tasks.....	54
Taking Prompts and Using Them to Develop Contextualised Tasks .....	55
Summary .....	56
And Where Was the Photograph Taken? .....	56
<b>6 Using Content-Specific Open-Ended Tasks .....</b>	<b>57</b>
The Potential Contribution from Open-Ended Tasks to Student Learning .....	57
Creating a Learning Experience Around a Content-Specific Open-Ended Task.....	59

Insights into Related Teacher Actions Based on Observations	
During the Project .....	61
Finding Out What the Students Are Actually Doing Is Difficult.....	62
Sometimes Communicating the Precision of Mathematical	
Language Is Helpful.....	63
It Is Important that Questions Are Purposeful .....	63
There Is No Need to Talk All the Time.....	64
It Is Useful to Be Aware of Reluctant Contributors .....	64
Examples of Content-Specific Open-Ended Tasks .....	64
Some Reactions from Project Teachers to Open-Ended Tasks .....	65
The Teachers' Definitions of the Tasks .....	65
Some Examples of the Tasks that Teachers Valued .....	66
The Advantages of Open-Ended Tasks as Seen by the Teachers.....	67
The Constraints on the Use of Open-Ended Tasks as Seen	
by the Teachers .....	67
Sourcing and Creating Content-Specific Open-Ended Tasks .....	68
Method 1: Working Backwards .....	68
Method 2: Adapting a Standard Question.....	69
Summary .....	70
<b>7 Moving from the Task to the Lesson: Pedagogical</b>	
<b>Practices and Other Issues .....</b>	<b>71</b>
Looking for Three More: An Open-Ended Task	
to Challenge and Enhance Students' Understanding of (Mean)	
Average .....	72
Being Clear on the Mathematical Focus and the Goals	
of the Lesson for Students.....	72
Considering the Background Knowledge Which Student	
Are Likely to Bring to the Task, How to Establish This,	
and Likely Responses Students Will Make to the Tasks,	
Including the Difficulties They Might Experience .....	73
Considering Ways in Which Students Who Have Difficulty	
Making a Start on the Problem and Students Who Solve the	
Problem Quickly Might Best Be Supported .....	74
Monitoring Students' Responses to Tasks as They Work	
Individually or in Small Groups on the Tasks.....	74
Selecting Students Who Will Be Invited to Share	
During the Discussion Time .....	79
Focusing on Connections, Generalisation, and Transfer .....	80
Considering What the Next Lesson Might Look Like .....	81
Differences Between Task Types in Relation to the Process	
of Turning a Task into a Lesson .....	82
Summary .....	83

<b>8 Constructing a Sequence of Lessons .....</b>	<b>85</b>
Introduction.....	85
A Sequence of Lessons on Presenting and Interpreting Data.....	86
An Investigative Project as an Overarching Theme.....	87
Lesson One: Most Popular Letter .....	88
Lesson Two: Introducing Graphical Representations .....	89
Features of Graphical Representations .....	89
Matching Graphical Representations .....	89
Lesson Three: Conducting and Representing Survey Results .....	90
Lesson Four: Making Decisions on Representations.....	91
Finding Similar Graphs.....	91
Rock, Paper, Scissors .....	92
Lesson Five: Two-Way Tables .....	92
Lesson Six: Average Height of Class.....	93
Lesson Seven: Mean Average .....	94
A Sentence with Five Words.....	94
Average Height of the School .....	95
Lesson Eight: Comparing and Contrasting Measures of Centre and Spread.....	95
Seven People Went Fishing.....	95
Clues on Cards .....	96
Post-sequence Assessment and Evaluation.....	96
The Lesson Observations, Including Observations of Lesson Five.....	97
Summary .....	98
<b>9 Students' Preferences for Different Types of Mathematics Tasks .....</b>	<b>99</b>
Seeking Students' Opinions About Tasks.....	99
Responses of Students to Pre-determined Prompts About Tasks and Pedagogies.....	100
Students' Attitudes.....	101
In Summary.....	106
Tasks Preferences Within a Lesson Sequence .....	107
Summary .....	109
<b>10 Students' Perceptions of Characteristics of Desired Mathematics Lessons .....</b>	<b>111</b>
Responses from the Overall Survey on Desired Lesson Characteristics .....	111
Students' Essays on Their "Ideal Maths Class".....	115
Some Themes in the Data .....	117
Classroom Grouping .....	117
Interaction Between Teacher and Students .....	119
Summary .....	120

<b>11</b>	<b>Contrasting Types of Tasks: A Story of Three Lessons.....</b>	<b>121</b>
	The Tasks and the Lessons.....	122
	Inside and Outside the Square.....	122
	Dido's Problem .....	122
	What the L?.....	123
	Results: Teacher Data .....	126
	Order of Teaching .....	126
	Teaching and Learning Challenges.....	127
	Teacher Preferences .....	128
	One Teacher's Contrast Between Types of Tasks .....	130
	Student Responses .....	131
	Student Preferences.....	131
	Advice on Improving Lessons .....	132
	Summary Comments from the Student Data .....	133
	Relationship Between the Student Preferences and the Teacher Preferences .....	133
	Summary .....	134
<b>12</b>	<b>Conclusion .....</b>	<b>135</b>
	What We Learnt About the Different Types of Tasks.....	136
	Purposeful Representational Tasks .....	136
	Contextual Tasks .....	137
	Open-Ended Tasks .....	137
	Other Types of Tasks.....	138
	Planning for Task Implementation (or Turning the Task into a Lesson) .....	138
	Differences in Task Implementation .....	139
	Opportunities and Constraints in Task Use.....	141
	Students and Mathematics Tasks .....	143
<b>13</b>	<b>A Selection of Mathematical Tasks.....</b>	<b>145</b>
	Purposeful Representational Tasks .....	146
	Chocolate Blocks .....	147
	Clues on Cards .....	149
	Decimal Maze .....	152
	Smartie Predictions .....	155
	Matching Graphical Representations .....	159
	Five Contextualised Tasks.....	161
	Music Cards .....	162
	Mike and His Numbers .....	165
	Block of Land .....	168
	Comparing Coins from Different Countries .....	173

Content-Specific Open-Ended Tasks .....	176
Wrap the Present .....	177
Painting a Room.....	180
Writing a Sentence .....	183
Different Ways to Represent Data.....	186
Money Measurement .....	190
<b>References</b> .....	195
<b>Index</b> .....	201

Teaching with Tasks for Effective Mathematics Learning

Sullivan, P.; Clarke, D.; Clarke, B.

2013, XIV, 206 p.,

ISBN: 978-1-4614-4681-1
