

# Contents

<b>1</b>	<b>Spatio-temporal Networks: An Introduction</b>	<b>1</b>
1.1	Spatio-temporal Networks.	1
1.2	Application Domain.	2
1.3	Background Information.	3
<b>2</b>	<b>Time Aggregated Graph: A Model for Spatio-temporal Networks</b>	<b>7</b>
2.1	Modeling Spatio-temporal Networks	7
2.1.1	Illustrative Application Domains.	8
2.1.2	Broad Computer Science Challenges	10
2.2	Basic Concepts	12
2.2.1	The Conceptual Model	12
2.2.2	A Logical Data Model.	14
2.2.3	Physical Data Model	18
2.3	Evaluation and Validation	21
2.3.1	Representational Comparison: Time Aggregated Graphs Versus Existing Models	21
2.3.2	Comparison of Storage Costs with Time Expanded Networks	23
2.4	Summary	24
<b>3</b>	<b>Shortest Path Algorithms for a Fixed Start Time</b>	<b>25</b>
3.1	Introduction	25
3.1.1	Broad Challenges	26
3.2	Basic Concepts	27
3.2.1	Classification of Shortest Path Algorithms	27
3.2.2	Algorithmic Challenges	27
3.3	Shortest Path Computation for Fixed Start Time	29
3.3.1	Shortest Path Algorithm for Fixed Start Time in a FIFO Network (SP-TAG)	30

3.3.2	A* Formulation of Shortest Path Algorithm for a Fixed Start Time in a FIFO Network (SP-TAG*) . . . . .	33
3.4	Shortest Path Algorithm for a Given Start Time in a Non-FIFO Network (NF-SP-TAG). . . . .	35
3.5	Experimental Analysis . . . . .	38
3.5.1	Experiment Design . . . . .	38
3.5.2	Experimental Results and Analysis . . . . .	39
3.6	Summary . . . . .	42
<b>4</b>	<b>Best Start Time Journeys . . . . .</b>	<b>43</b>
4.1	Introduction . . . . .	43
4.2	Basic Concepts . . . . .	45
4.2.1	The Conceptual Model . . . . .	45
4.2.2	Basic Design Space of Shortest Path Algorithms . . . . .	47
4.2.3	Algorithmic Challenges . . . . .	48
4.3	Time Iterative SP-TAG* (TI_SP-TAG*) Algorithm for FIFO Networks . . . . .	50
4.4	Best Start Time Shortest Path Algorithms for Non-FIFO Networks . . . . .	52
4.4.1	Best Start Time Shortest Path (BEST) Algorithm (Label Correcting Approach) . . . . .	52
4.4.2	Best Start Time Algorithm Using ATST (CP-NF-BEST Algorithm) . . . . .	54
4.5	Experimental Analysis . . . . .	56
4.5.1	Experiment Design . . . . .	56
4.5.2	Experimental Results and Analysis . . . . .	57
4.6	Summary . . . . .	61
<b>5</b>	<b>Spatio-temporal Network Application . . . . .</b>	<b>63</b>
5.1	Multimodal Transportation Networks . . . . .	63
5.1.1	Modeling Multimodal Networks . . . . .	63
5.1.2	Time Aggregated Graph Representation. . . . .	65
5.1.3	Routing in Multimodal Networks . . . . .	65
5.2	Modeling Sensor Networks . . . . .	66
5.2.1	Hotspot Detection . . . . .	67
