

# Contents

<b>Applications of Blaschke Products to the Spectral Theory of Toeplitz Operators</b> . . . . .	1
Sergei Grudsky and Eugene Shargorodsky	
<b>Approximating the Riemann Zeta-Function by Strongly Recurrent Functions</b> . . . . .	31
P.M. Gauthier	
<b>A Survey on Blaschke-Oscillatory Differential Equations, with Updates</b> .	43
Janne Heittokangas	
<b>Bi-orthogonal Expansions in the Space <math>L^2(0, \infty)</math></b> . . . . .	99
André Boivin and Changzhong Zhu	
<b>Blaschke Products as Solutions of a Functional Equation</b> . . . . .	113
Javad Mashreghi	
<b>Cauchy Transforms and Univalent Functions</b> . . . . .	119
Joseph A. Cima and John A. Pfaltzgraff	
<b>Critical Points, the Gauss Curvature Equation and Blaschke Products</b> . .	133
Daniela Kraus and Oliver Roth	
<b>Growth, Zero Distribution and Factorization of Analytic Functions of Moderate Growth in the Unit Disc</b> . . . . .	159
Igor Chyzykhov and Severyn Skaskiv	
<b>Hardy Means of a Finite Blaschke Product and Its Derivative</b> . . . . .	175
Alan Gluchoff and Frederick Hartmann	
<b>Hyperbolic Derivatives Determine a Function Uniquely</b> . . . . .	187
Line Baribeau	
<b>Hyperbolic Wavelets and Multiresolution in the Hardy Space of the Upper Half Plane</b> . . . . .	193
Hans G. Feichtinger and Margit Pap	

<b>Norms of Composition Operators Induced by Finite Blaschke Products on Möbius Invariant Spaces . . . . .</b>	<b>209</b>
María J. Martín and Dragan Vukotić	
<b>On the Computable Theory of Bounded Analytic Functions . . . . .</b>	<b>223</b>
Timothy H. McNicholl	
<b>Polynomials Versus Finite Blaschke Products . . . . .</b>	<b>249</b>
Tuen Wai Ng and Chiu Yin Tsang	
<b>Recent Progress on Truncated Toeplitz Operators . . . . .</b>	<b>275</b>
Stephan Ramon Garcia and William T. Ross	

Blaschke Products and Their Applications

Mashreghi, J.; Fricain, E. (Eds.)

2013, X, 322 p., Hardcover

ISBN: 978-1-4614-5340-6
