## **Part I Understanding, Characterization and Synthesis of Modern Metal Oxide Nanomaterials**

<b>1</b>	<b>Insights into the Mechanism of Gas Sensor Operation . . . . .</b>	<b>3</b>
	Aleksander Gurlo	
<b>2</b>	<b>Surface Science Studies of Metal Oxide Gas Sensing Materials . . . . .</b>	<b>35</b>
	Junguang Tao and Matthias Batzill	
<b>3</b>	<b>Design, Synthesis and Application of Metal Oxide-Based Sensing Elements: A Chemical Principles Approach . . . . .</b>	<b>69</b>
	Valery Krivetskiy, Marina Rumyantseva and Alexander Gaskov	
<b>4</b>	<b>Combinatorial Approaches for Synthesis of Metal Oxides: Processing and Sensing Application. . . . .</b>	<b>117</b>
	Clemens J. Belle and Ulrich Simon	
<b>5</b>	<b>Selective Crystal Structure Synthesis and Sensing Dependencies. . .</b>	<b>167</b>
	Lisheng Wang and Perena Gouma	
<b>6</b>	<b>Synthesis of Metal Oxide Nanomaterials for Chemical Sensors by Molecular Beam Epitaxy . . . . .</b>	<b>189</b>
	Manjula I. Nandasiri, Satyanarayana V. N. T. Kuchibhatla and Suntharampillai Thevuthasan	
<b>7</b>	<b>Atomic Layer Deposition for Metal Oxide Nanomaterials . . . . .</b>	<b>225</b>
	Xiaohua Du	

<b>8</b>	<b>Microwave Synthesis of Metal Oxide Nanoparticles . . . . .</b>	<b>245</b>
	Natalie P. Herring, Asit B. Panda, Khaled AbouZeid, Serial H. Almahoudi, Chelsea R. Olson, A. Patel and M. S. El-Shall	
 <b>Part II Novel Morphologies and Signal Transduction Principles in Metal Oxide-Based Sensors</b>		
<b>9</b>	<b>Metal Oxide Nanowires: Fundamentals and Sensor Applications . . . . .</b>	<b>287</b>
	Zhiyong Fan and Jia G. Lu	
<b>10</b>	<b>ZnO Nanowires for Gas and Bio-Chemical Sensing . . . . .</b>	<b>321</b>
	Stephen J. Pearton, David P. Norton and Fan Ren	
<b>11</b>	<b>Metal Oxide Nanowire Sensors with Complex Morphologies and Compositions . . . . .</b>	<b>345</b>
	Qihong Li, Lin Mei, Ming Zhuo, Ming Zhang and Taihong Wang	
<b>12</b>	<b>Optical Sensing Methods for Metal Oxide Nanomaterials. . . . .</b>	<b>365</b>
	Nicholas A. Joy and Michael A. Carpenter	
 <b>Part III New Device Architectures and Integration Challenges</b>		
<b>13</b>	<b>Metal Oxide Nano-architectures and Heterostructures for Chemical Sensors . . . . .</b>	<b>397</b>
	Thomas Fischer, Aadesh P. Singh, Trilok Singh, Francisco Hernández-Ramírez, Daniel Prades and Sanjay Mathur	
<b>14</b>	<b>Evaluation of Metal Oxide Nanowire Materials With Temperature-Controlled Microsensor Substrates. . . . .</b>	<b>439</b>
	Kurt D. Benkstein, Baranidharan Raman, David L. Lahr and Steven Semancik	
<b>15</b>	<b>Multisensor Micro-Arrays Based on Metal Oxide Nanowires for Electronic Nose Applications . . . . .</b>	<b>465</b>
	Victor V. Sysoev, Evgheni Strelcov and Andrei Kolmakov	
<b>16</b>	<b>Microhotplates and Integration with Metal-Oxide Nanomaterials . . . . .</b>	<b>503</b>
	Emanuele Barborini	
	<b>Concluding Remarks and Outlook . . . . .</b>	<b>539</b>
	<b>Index . . . . .</b>	<b>543</b>

Metal Oxide Nanomaterials for Chemical Sensors

Carpenter, M.A.; Mathur, S.; Kolmakov, A. (Eds.)

2013, XX, 548 p., Hardcover

ISBN: 978-1-4614-5394-9
