

Contents

| | |
|--|----|
| 1 Preliminaries | 1 |
| 1.1 Notation and Terminology | 1 |
| 1.2 A Result on 3-Solvable Groups | 2 |
| 2 Tools: Presentations and Their Calculus | 5 |
| 3 Constructions | 9 |
| 3.1 Semi-direct Products | 9 |
| 3.1.1 Internal | 9 |
| 3.1.2 External | 9 |
| 3.1.3 Examples | 10 |
| 3.2 Wreath Products | 12 |
| 3.2.1 Internal and Restricted | 12 |
| 3.2.2 External | 13 |
| 3.2.3 Examples | 14 |
| 3.3 <i>HNN</i> -Extensions | 15 |
| 3.3.1 Internal | 15 |
| 3.3.2 External | 16 |
| 3.3.3 Examples | 16 |
| 4 Representations and a Theorem of Krasner and Kaloujnine | 19 |
| 4.1 Cayley's Permutation Representation | 19 |
| 4.2 Frobenius' Permutation Representation | 19 |
| 4.3 A Theorem of Krasner and Kaloujnine | 21 |
| 5 The Bieri–Strebel Theorems | 25 |
| 6 Finitely Generated Metabelian Groups | 31 |
| 7 An Embedding Theorem for Finitely Generated Metabelian Groups | 35 |

| | | |
|----------|---|----|
| A | Sketch of Proof of Lemma 1.1 | 45 |
| B | Theorem 2.1 Details | 49 |
| C | Presenting an (Internal) HNN-Extension | 51 |
| | References | 52 |

Lectures on Finitely Generated Solvable Groups

Bencsath, K.A.; Bonanome, M.C.; Dean, M.H.; Zyman, M.

2013, XIV, 52 p., Softcover
