

Contents

1 Geological Observations Supporting Dynamic Climatic Changes	1
Ronald C. Surdam	
2 The Story of the Wyoming Carbon Underground Storage Project (WY-CUSP), and the Regional Inventory and Prioritization of Potential CO₂ Storage Reservoirs in Wyoming	15
Ramsey D. Bentley and Ronald C. Surdam	
3 Legal Framework: Carbon Storage Regulations and Access for the Wyoming Carbon Underground Storage Project (WY-CUSP)	21
Lynne Boomgaarden and Shanna C. Dahl	
4 A Strategy for Designing an Optimal Characterization Study of the Premier Carbon Capture, Utilization and Storage Site in Wyoming	27
Ronald C. Surdam	
5 Regional Geologic History, CO₂ Source Inventory, and Groundwater Risk Assessment of a Potential CO₂ Sequestration Site on the Rock Springs Uplift in Southwest Wyoming	33
J. Fred McLaughlin, Ramsey D. Bentley and Scott A. Quillinan	
6 Detailed Geologic Characterization of Core and Well Data from the Weber and Madison Formations and Associated Seals at a Potential CO₂ Sequestration Site in Southwest Wyoming: Definining the Lithologic, Geochemical, Diagenetic, and Burial Histories Relative to Successful CO₂ Storage	55
J. Fred McLaughlin and Mario Garcia-Gonzalez	

7	Utility of 3-D Seismic Attribute Analysis and VSP for Assessing Potential Carbon Sequestration Targets on the Rock Springs Uplift, Southwest Wyoming	97
	Yuri Ganshin and Ronald C. Surdam	
8	Reservoir Fluid Characterization of the Weber Sandstone and Madison Limestone on the Rock Springs Uplift in Southwest Wyoming	151
	Scott A. Quillinan and J. Fred McLaughlin	
9	Predicting Permeability in the Target Reservoirs on the Rock Springs Uplift, Southwest Wyoming	169
	Yuri Ganshin	
10	Advances in Estimating the Geologic CO₂ Storage Capacity of the Madison Limestone and Weber Sandstone on the Rock Springs Uplift by Utilizing Detailed 3-D Reservoir Characterization and Geologic Uncertainty Reduction	191
	Zunsheng Jiao and Ronald C. Surdam	
11	Displaced Fluid Management—the Key to Commercial-Scale Geologic CO₂ Storage	233
	Ronald C. Surdam, Scott A. Quillinan and Zunsheng Jiao	
12	The Carbon Management Institute’s Integrated CO₂ Storage/EOR Strategy: the Advantages of Deploying Innovative, Multiple-Resource Development Strategies Designed to Foster Sustainability of Energy and Environmental Resources	245
	Ronald C. Surdam, Ramsey D. Bentley and Zunsheng Jiao	
13	A Feasibility Study of the Integration of Geologic CO₂ Storage with Enhanced Oil Recovery (CO₂ Flooding) in the Ordos Basin, China	271
	Zunsheng Jiao, Ronald C. Surdam, Lifa Zhou and Yajun Wang	
14	Summary of the WY-CUSP Characterization Program	295
	Ronald C. Surdam

Geological CO₂ Storage Characterization

The Key to Deploying Clean Fossil Energy Technology

Surdam, R.C. (Ed.)

2013, XV, 301 p. 134 illus., 111 illus. in color.,

Hardcover

ISBN: 978-1-4614-5787-9
