

Contents

1	Electrical Transmission Systems and Smart Grids, Introduction	1
	Miroslav M. Begovic	
2	Distribution Systems, Substations, and Integration of Distributed Generation	7
	John D. McDonald, Bartosz Wojszczyk, Byron Flynn, and Ilia Voloh	
3	Renewable Generation, Integration of	69
	Bri-Mathias Hodge, Erik Ela, and Paul Denholm	
4	Transmission Blackouts: Risk, Causes, and Mitigation	99
	Damir Novosel	
5	Wide Area Monitoring, Protection and Control	129
	James S. Thorp and Arun G. Phadke	
6	Smart Grids, Distributed Control for	159
	Frank Kreikebaum and Deepak Divan	
7	Underground Cable Systems	195
	Yamille Del Valle, Nigel Hampton, Josh Perkel, and Caryn Riley	

8 Energy and Water Interdependence, and Their Implications for Urban Areas	239
Liz Minne, Arka Pandit, John C. Crittenden, Miroslav M. Begovic, Insu Kim, Hyunju Jeong, Jean-Ann James, Zhongming Lu, Ming Xu, Steve French, Muthukumar Subrahmanyam, Douglas Noonan, Marilyn A. Brown, Jess Chandler, Yongsheng Chen, Eric Williams, Reginald Desroches, Bert Bras, Ke Li, and Michael Chang	
9 Sustainable Smart Grids, Emergence of a Policy Framework	271
Marilyn A. Brown and Shan Zhou	
Index	319

Electrical Transmission Systems and Smart Grids
Selected Entries from the Encyclopedia of Sustainability
Science and Technology
Begovic, M.M. (Ed.)
2013, VI, 326 p., Hardcover
ISBN: 978-1-4614-5829-6
