

# Contents

|          |   |           |
|----------|---|-----------|
| <b>1</b> | <b>Introduction</b>   | <b>1</b>  |
| 1.1      | Problem and Need  | 1         |
| <b>2</b> | <b>Conceptual Model of Estuary Ecosystems</b>                                       | <b>5</b>  |
| 2.1      | Estuaries   | 5         |
| 2.2      | Human Interactions  | 6         |
| 2.3      | Hydrology and the Water Cycle   | 10        |
| 2.4      | Tides and Residence Times   | 12        |
| 2.5      | Estuarine Condition and Water Column Effects  | 13        |
| 2.5.1    | Salinity  | 13        |
| 2.5.2    | Sediments   | 17        |
| 2.5.3    | Nutrients   | 17        |
| 2.5.4    | Biological Indicators   | 18        |
| <b>3</b> | <b>Case Studies</b>   | <b>23</b> |
| 3.1      | Texas, USA  | 23        |
| 3.1.1    | Physical Background   | 23        |
| 3.1.2    | History of Freshwater Management  | 29        |
| 3.1.3    | Recent Texas Research   | 34        |
| 3.2      | Florida, USA  | 39        |
| 3.2.1    | Water Management District Profiles  | 40        |
| 3.2.2    | Florida Water Resource Policy   | 41        |
| 3.2.3    | District Management Approaches  | 42        |
| 3.2.4    | Southwest Florida Mollusks  | 43        |
| 3.2.5    | St. John's River Macroinvertebrates   | 45        |
| 3.3      | Tri-State Water Sharing Issues Within the<br>Apalachicola-Chattahoochee-Flint Basin | 50        |
| 3.4      | California, USA   | 53        |
| 3.4.1    | Regional Water Quality Control Board Profiles                                       | 56        |
| 3.4.2    | San Francisco Bay   | 57        |
| 3.5      | Gulf of California, Mexico  | 60        |
| 3.6      | Guadiana River Estuary, Europe  | 64        |
