

Contents

1 A Framework for Business Analytics	1
A Brief History of Analytics	3
Business: The Decision-Making and Execution Perspective	4
Analytics: The Techniques Perspective	5
IT: The Tools and Systems Perspective	5
A Framework for Business Analytics	6
2 Analytics Domain Context	9
Rational Decisions	9
Decision Needs and Decision Layers	10
Models: Connecting Decision Needs to Analytics	15
Stakeholders	17
Roles: Connecting Stakeholders to Analytics	17
3 Decision Framing: Defining the Decision Need	19
Big Y, Little Y and Decision Framing	19
Decision Framing for Decision Layers	22
The Airline Partnership Model	23
Aligning the Layers: Tying the Decision Frame	27
Decision Frames Set Business Expectations	28
4 Decision Modeling	31
Types of Models	32
Context Diagrams	33
Data Visualization	34
Mathematical Models	35
Big Data and Big Models	36
Network Models	37
Capability Models	43
Control Systems Modeling	47
Expertise	47
Learning by Asking	49

Learning by Experiment	51
Value Improvement	53
Optimization Systems Modeling	58
Workflow Modeling.	59
Modeling Processes and Procedures	60
Modeling Assignment and Dispatch	61
Modeling Events and Alerts	62
Transparency, Integrity, Validity and Security	62
Deliverables from Decision Modeling	63
5 Decision Making	67
The Role of the Decision Modeler	68
The Decision Making Method.	69
Set Context	70
Decision Process	71
Step 1: Frame	72
Step 2: Debate	72
Step 3: Decide	72
Decision Making Roles	73
Biases, Emotions, and Bounded Rationality	74
Managing Irrationality: Removing Bias from Analytics	76
6 Decision Execution	79
Align & Enable	79
Observe & Report	81
Communicate & Converse	82
7 Business Intelligence	85
A Brief History of Data Infrastructure	85
Business Intelligence for Analytics	87
Business Intelligence in the Analytics Framework	88
Data Sourcing	90
Transaction Processing Systems	90
Benchmarks and External Data Sources	90
Survey Tools	91
Analytical Output	92
Data Loading	92
Solve Data Quality IT Issues	93
Analytical Datasets and BI Assets	93
Operational Data Store	94
Data Warehouse	94
Data Mart	94
Data Structuring and Transformation	95
Business Analytics Input Databases	95
Business Analytics Ready Databases	96
Analytics Tools	96

Reporting	96
Dashboards	97
Data Visualization	97
Modeling Capabilities	97
Spreadsheets and Microsoft Office Integration	97
Data Stewardship and Meta Data Management	98
Collaboration	98
Inline Analytics Tools Deployment	98
8 Data Stewardship: Can We Use the Data?	101
Initial Data Provision	101
First-Cut Review of the Data	102
Sorts, Scatters and Histograms	102
Fitness for Use	103
Privacy and Surveillance	104
Ongoing Data Provision	104
Ongoing Data Sourcing	104
Ongoing Data Assessment	105
Data Scrubbing and Enrichment	105
Data Scrubbing	106
Data Enrichment	106
On Hierarchies, Tagging, and Categorizations	108
Manage Data Problems	110
Work with IT to Solve IT Issues	110
Work with Business to Solve Business Issues	111
Manage Data Dictionary	111
9 Making Organizations Smarter	113
Why Bother with Analytics?	113
Analytics Culture Maturity	114
Actionable Analytics	116
Measure the Value of Analytics	117
Scaling the Decision Culture	118
Lies, Damn Lies and Statistics (or Analytics)	118
Value Management: From Assessment to Realization	118
Make a Plan	119
Criticize the Plan	119
Execute the Plan, Re-assess at Checkpoints	120
10 Building the Analytics Capability	123
Analytics Ecosystem	123
Placing Analytics Capabilities in the Organization	125
Analytics Team Skills and Capacity	126
Analytics Scheduling and Workflow	129
Tracking the Value of Analytics	130
Analytics Maturity Model	130

11 Analytics Methods	133
Process Value Management (Experiment to Evolve)	133
Capability Value Management	135
Organizational Value Management	135
Concept to Value Realization	137
Criteria for Selecting the Analytics Method	138
12 Analytics Case Studies	141
Case Study: Product Lifecycle and Replacement	142
Decision Framing	142
Data Collection	143
Data Assessment	143
Decision Modeling	143
Decision Making	145
Decision Execution	145
Case Study: Channel Partner Effectiveness	146
Decision Framing	146
Data Collection	146
Data Assessment	147
Decision Modeling	147
Decision Making	148
Decision Execution	148
Case Study: Next Likely Purchase	148
Decision Framing	148
Data Collection	149
Data Assessment	149
Decision Modeling	150
Decision Making	151
Decision Execution	151
Case Study: Resource Management	152
Decision Framing	153
Data Collection	153
Data Assessment	154
Decision Modeling	155
Decision Making	155
Decision Execution	156
