

Contents

1	Introduction.....	1
1	Purpose of the Book.....	1
2	Focus of the Analysis.....	2
3	Organization of this Book.....	4
3.1	This Book Is Composed of the Following Chapters.....	4
3.2	Chapter 2.....	4
3.3	Chapter 3.....	5
3.4	Chapter 4.....	5
3.5	Chapter 5.....	5
3.6	Chapter 6.....	6
3.7	Chapter 7. Conclusion.....	6
2	Brief Overview of the Tohoku 3.11 Mega Earthquake, Tsunami, and Fukushima NPS Disasters.....	7
1	Facts on the 3.11 Earthquake and Tsunami Scale Based on the Mid-June 2011 White Paper on Disaster Reduction.....	7
2	Initial Quakes and Tsunami Damages.....	7
3	Initial Nuclear Power Plant Accidents.....	9
4	Economic Damages by the Great East Japan Earthquake.....	9
5	Illustration and Analysis of the Crisis with Socioeconomic Data on the Afflicted Population and Communities.....	10
5.1	Introduction: Current Macroeconomic Situation.....	10
5.2	Situation of the Three Afflicted Prefectures.....	11
5.3	Situations of the Municipalities Damaged by Tsunami in the Three Prefectures.....	15
5.4	Social and Economic Situations of the Areas Surrounding the Fukushima Nuclear Power Stations.....	18

3 Government Institutions Available at Time of the 3.11 Disaster for the Emergency Management	25
1 Overall Framework of the Disaster Management Systems at the Time of 3.11 Disaster	25
2 Institutions for Disaster Countermeasures in Respective Government Organizations at the Time of 3.11 Disaster.....	30
2.1 The Self-Defense Forces of the Ministry of Defense: Responsibilities and Relationships with Local Governments	30
2.2 The Fire Fighters and Relevant Organizations	30
2.3 The National Police Agency of the National Government	32
2.4 Nuclear Emergency Response System.....	32
2.5 DMAT of Japan.....	35
2.6 Councils of Social Welfare	35
3 Overview of Disaster-Related Laws	36
3.1 History of Disaster-Related Laws.....	36
3.2 Major Disaster Related Laws.....	36
4 How the 3.11 Emergency Responses for the Gigantic Natural Disasters Were Actually Organized	39
1 Overview.....	39
2 Ad Hoc Extreme Disaster Management Headquarters	39
3 Organizations Involved in Immediate Rescue and Relief from the Disaster.....	41
4 Activities by the Self-Defense Forces of the Ministry of Defense	43
5 Organizations in the Damaged Local Governments	45
6 Personnel Dispatch from National and Local Governments to the Local Governments in Afflicted Areas.....	45
7 Nationwide Evacuee Information Exchange System.....	46
8 New Institutional Measures Taken Right After the Great East Japan Earthquake	47
8.1 Revision of the Basic Plan for Emergency Preparedness	47
8.2 Amendments to the Disaster Countermeasures Basic Act	47
8.3 Establishment of a Police Disaster Dispatch Team System.....	47
9 Summing Up	48
5 Managing Fukushima NPS Accidents: In Particular Focus on Government Crisis Communication	49
1 Part 1. Overview of the Initial Responses in Government Crisis Communication	49
1.1 Government Crisis Communication in the Initial Emergency Responses	49
1.2 Sequence of Actions Taken in the Initial 5 Days of 3.11 NPS Accidents	52

2	Part 2. In Search for Accountable and Transparent Crisis Management: Causes and Discourses on the Fukushima Nuclear Disaster from the Review of 3.11 Government Crisis Communication Problems.....	67
2.1	Several Discourses on the Causes (from A to J) Leading the NPS Disaster.....	67
2.2	Analyses on the Causes Emanating from the Culture and Social System to the Negligence and Lack of Preparedness to the NPS Accidents (from A to E)	70
2.3	Discourses on the Causes Derived Out of the 3.11 Emergency Responses in Particular Focus on Government Crisis Communication (from F to J).....	74
3	Part 3. Prognoses from Lessons Learned for Creating Better Government Crisis Communication.....	77
3.1	Need to Be More Cognizant by All that the Current Nuclear Technology is Underdeveloped or Involving Many Uncertainties.....	78
3.2	Need to Share the Fukushima NPS Accident Experiences in International Community.....	78
3.3	Summing Up for Capacity Rebuilding of Crisis Management and Disaster Governance from the Chapter Analyses	79
6	Road to Recovery and Reconstruction After the Great East Japan Earthquake	81
1	Overall Recovery Under Process	81
2	Four Supplementary Budgets of the Fiscal Year 2011 of the Government	82
2.1	Outline of the First Two Fiscal 2011 Supplementary Budgets for Recovery and Reconstruction	82
2.2	The Third and Fourth Fiscal 2011 Supplementary Budgets	82
3	Overview of the Basic Act on Great East Japan Earthquake Reconstruction and the Basic Guidelines for Reconstruction.....	84
3.1	Reconstruction Design Council	84
3.2	Basic Act on Great East Japan Earthquake Reconstruction.....	85
3.3	Basic Guidelines for Reconstruction	86
4	Reflecting Current Policies in Light of Social and Economic Situations of Disaster-Afflicted Region	87
4.1	Full Mobilization of “Soft and Hard” Measures Based on the Concept of “Disaster Reduction”	87
4.2	Secure Stable Residence for Affected People	88
4.3	Measures for Private Businesses, Small- and Medium-Sized Enterprises, Agriculture, Fisheries, etc.	88
5	Financing the Reconstruction	91

6	A Special Zone System for Reconstruction	92
6.1	Introduction.....	92
6.2	Reconstruction Acceleration Plan.....	93
6.3	Land Restructuring Plan	94
6.4	Reconstruction Grant Projects Plan	95
7	New Institutions Created and/or Planned from Lessons of 3.11 Experiences.....	95
7.1	Establishing the Reconstruction Agency	95
7.2	Establishing a Nuclear Regulation Authority	96
8	New Laws Enacted After the Great East Japan Earthquake as of 10 August 2012.....	97
9	Future Perspective.....	100
7	Conclusion	103
