Part I Managing Perimenopausal and Postmenopausal Symptoms with the New Menopausal HT

1 FAQ: Definitions of Menopause and Biological Actions of Sex Steroids.....	3
Introduction.....	3
Bibliography	13
2 Principles of Practice	17
Bibliography	20
3 Medical Association Guidelines, Post-2002/Women's Health Initiative Findings.....	21
FDA Approvals and Contraindications	22
FDA Approvals for HT	22
FDA Contraindications for HT	22
The North American Menopause Society	23
International Menopause Society:	
Recommendations on Postmenopausal Hormonal Therapy and Preventative Strategies for Midlife Health	24
AACE/American Association of Clinical Endocrinology.....	34
Bibliography	37

4	Perimenopausal Symptoms: Hot Flashes and Night Sweats; Sleep Disturbances; Urogenital Discomfort; Sexual Libido Issues; Mood and Cognitive Changes	39
	Introduction	39
	Most Common Perimenopausal Symptoms that Women Report	39
	Vasomotor Symptoms: Hot Flashes/Night Sweats ..	40
	Sleep Issues: Insomnia, Decreased Quality of Sleep	41
	Urogenital Symptoms	41
	Mood and Cognition	41
	Bibliography	42
5	FAQ: Bioidentical Hormones: Compounded and Non-compounded	43
	Introduction	43
	Bibliography	50

Part II Prescription of HT

6	Transdermal Estrogen as Preferred Prescription for Perimenopausal Symptom Relief, and the Role of Progesterone	53
	Transdermal Estradiol	53
	Contraindications for HT	54
	The Case for Transdermal Estrogen:	
	The ESTHER Study, 2007	54
	The KEEPS Study, 2012	55
	Bibliography	56
7	The Significance of Hormone Routes of Administration	57
	Introduction	57
	Routes of Administration	57
	Oral	58
	Vaginal	58

Transdermal: Patches, Gel, Creams	58
Less Commonly Prescribed Routes of Administration: Pellets and Estradiol Spray	59
Table of Routes of Administration and Brand	
Name Drugs	60
Bibliography	61
8 Hormone Therapy: Individualizing Treatment Based Upon Perimenopausal Symptoms	63
Introduction	63
Typical Prescribing Regimens	64
Considerations for Individualization	65
Transdermal Estradiol Formulations for Dosage and Prescription	66
Progesterones	68
Vulvar/Vaginal Discomfort	70
Bibliography	72
9 FAQ: HT Prescription	73
Part III Monitoring, Side Effects, Co-existing Conditions, and Ending Treatment	
10 Hormone Therapy: Monitoring Effects and Side Effects	79
Questions to Ask	79
Signs and Symptoms of HT Excess and/or Deficiency	80
Corrective Treatments	80
Breakthrough Bleeding	80
Contraindications	82
Drug Interactions	82
Bibliography	83
11 FAQ: Evaluation of Abnormal Menstrual Bleeding	85
Differential Diagnosis	85
Evaluation	86

12 FAQ: Ending HT	89
Bibliography	91
13 FAQ: HT and Other Conditions: Uterine Fibroids, Autoimmune disease, Hypothyroidism, and History of Breast Cancer.....	93
Bibliography	95

Part IV The Medical and Cultural History of HT

14 History of HT Use: Controversies and Confusions	99
The First Attempts at Manufacturing Synthetic Estrogen (1880s to World War II)	100
1930s and 1940s: The Development of DES	101
1960s: Estrogen Forever and the Promotion of HT to Sustain Youthfulness and Femininity	102
The 1970s: Estrogen Replacement and the Link to Uterine/Endometrial Cancer	103
1980s: The Pendulum Swings Back—HT and the Positive Link to Preventing Osteoporosis	105
1980s: The Pendulum Swings Back II: HT and Protection Against Heart Disease—The Nurses' Health Study and the PEPI Trials.....	106
The Nurses' Health Study	106
PEPI Trials, 1987	107
1990s: Heart Disease and Breast Cancer Risks, and Increasing Popularity of Prescription	108
The HERS Study, 1998	108
HT Linked to Blood Clots, 1996.....	109
The Women's Health Initiative, 2002	109
Post-WHI, Post-2002: Results for Hormone Therapy	112
Conclusions	113
Bibliography.....	113

15 The 2002 Women's Health Initiative Study (WHI): What Did It Prove or Disprove? Future Directions.....	115
Introduction.....	115
Conclusions.....	117
Bibliography	117
Appendix: Reference Table of HT Brand Names.....	119
Index.....	123

Hormone Therapy

A Clinical Handbook

Sherif, K.

2013, XVII, 127 p. 4 illus., Softcover

ISBN: 978-1-4614-6267-5
