

Contents

1 Stress-Induced Mutagenesis in Bacteria	1
Ivan Matic	
2 Mutagenesis Associated with Repair of DNA Double-Strand Breaks Under Stress.....	21
Chandan Shee, P.J. Hastings, and Susan M. Rosenberg	
3 Transcription-Mediated Mutagenic Processes	41
Eduardo Robleto, Holly A. Martin, Carmen Vallin, Mario Pedraza-Reyes, and Ronald Yasbin	
4 Transposon Mutagenesis in Disease, Drug Discovery, and Bacterial Evolution.....	59
Zhongge Zhang, Jing Wang, Maksim A. Shlykov, and Milton H. Saier Jr.	
5 Hsp90 as a Capacitor of Both Genetic and Epigenetic Changes in the Genome During Cancer Progression and Evolution	79
Xiangyi Lu, Luan Wang, Vincent E. Sollars, Mark D. Garfinkel, and Douglas M. Ruden	
6 Inheritance of Stress-Induced Epigenetic Changes Mediated by the ATF-2 Family of Transcription Factors	103
Ki-Hyeon Seong, Toshio Maekawa, and Shunsuke Ishii	
7 Microsatellite Repeats: Canaries in the Coalmine.....	119
Nimrat Chatterjee, Beatriz A. Santillan, and John H. Wilson	
8 Genetic Instability Induced by Hypoxic Stress	151
Susan E. Scanlon and Peter M. Glazer	

9	Radiation-Induced Delayed Genome Instability and Hypermutation in Mammalian Cells	183
	Christopher P. Allen, Akira Fujimori, Ryuichi Okayasu, and Jac A. Nickoloff	
10	Radiation-Induced Bystander Effects and Stress-Induced Mutagenesis	199
	Carmel Mothersill and Colin Seymour	
11	Stress Induced Mutagenesis, Genetic Diversification, and Cell Survival via Anastasis, the Reversal of Late Stage Apoptosis	223
	Ho Lam Tang, Ho Man Tang, and Denise J. Montell	
12	The Transgenerational Effects of Parental Exposure to Mutagens in Mammals	243
	Yuri E. Dubrova	
13	Revisiting Mutagenesis in the Age of High-Throughput Sequencing	257
	Subhajyoti De and R. Matthew Ward	
	Index	271

Stress-Induced Mutagenesis

Mittelman, D. (Ed.)

2013, XV, 275 p., Hardcover

ISBN: 978-1-4614-6279-8
