1 The Practice of Bioarchaeology	1
1.1 Bioarchaeology is Anthropology.....	1
1.1.1 Bioarchaeology as Integrative, Engaged, and Ethical	3
1.1.1.1 Goals of Bioarchaeological Research.....	5
1.2 Methodological and Theoretical Approaches.....	6
1.2.1 Integrating Human Remains with Archaeological Context	7
1.2.2 Integrating Human Remains with Ethical Considerations.....	8
1.2.3 Integrating Human Remains with Environment and Culture.....	9
1.2.3.1 Using a Biocultural Model.....	10
1.2.3.2 Adapting the Biocultural Model to Specific Research Questions.....	12
1.2.4 Integrating Human Remains with Contextual Data.....	13
1.2.4.1 Case Study: Ancient Arabia.....	15
1.2.4.2 Case Study: Ancient America.....	17
1.3 Summary.....	18
References.....	20
2 An Ethos for Bioarchaeologists.....	23
2.1 Historical Trends and Missed Opportunities for Integration and Engagement in the USA	25
2.1.1 The History of Physical Anthropology.....	26
2.1.1.1 The Role of Measurement in “Scientific Racism”	28
2.1.2 Developing a Biocultural Approach and the Origin of Modern Physical Anthropology	30

2.2	The Rise of Legislation and Its Effect on Bioarchaeology	32
2.2.1	Who Owns the Past?	34
2.2.2	The Impact of NAGPRA on Bioarchaeology	35
2.2.2.1	Case Study: American Southwest	36
2.2.2.2	Case Study: Columbia Plateau Region	39
2.2.3	NAGPRA and Bioarchaeology Can Coexist	40
2.2.4	Beyond Legislation: Bioarchaeology Outside of the USA	41
2.2.4.1	Case Study: Yaqui People	42
2.3	Indigenous Archaeology	45
2.4	Summary	49
	References	50
3	Formulating Research Projects Involving Human Remains	57
3.1	Bioarchaeology and Forensic Anthropology: Complementary Methods but Different Approaches	58
3.2	The Research Question: Putting Human Remains into Context	60
3.2.1	The Need for Empirical Data	62
3.2.2	Documenting Patterns and Processes in Life and in Death	64
3.3	Social Theory in Bioarchaeology	66
3.3.1	Theory: Evolution of Human Behavior	67
3.3.2	Theory: Human Ecology	69
3.3.3	Theory: Human Body and Identity	70
3.3.4	Theory: Sex and Gender	72
3.3.5	Theory: Human Violence	74
3.3.5.1	Massive Trauma	76
3.3.6	Theory: Inequality	78
3.3.7	Theory: Colonization and Imperialism	80
3.4	Research Design	81
3.5	Summary	83
	References	84
4	Best Practices: Excavation Guidelines and Taphonomic Considerations	93
4.1	Understanding the Origin and Condition of the Human Remains	93
4.2	Levels of Participation	94
4.2.1	The Role of Bioarchaeologists	94
4.2.1.1	Bioarchaeologists as Consultants	95
4.2.1.2	Bioarchaeologist as Collaborators	96
4.2.1.3	Bioarchaeologists as Supervisors	97

4.2.2	The Different Roles and their Varying Outcome:	
	Case Studies.....	97
4.2.2.1	Case Study: CILHI	97
4.2.2.2	Case Study: Bioarchaeologists as Engaged Researchers.....	98
4.3	Excavation of Human Remains	100
4.3.1	Locating the Body.....	100
4.3.2	Procedures for Removing the Body.....	101
4.3.2.1	Maintain Detailed Records and Photograph Everything	101
4.3.2.2	Measure and then Measure Some More	102
4.3.2.3	Case Study: Peñasco Blanco.....	102
4.4	Taphonomy: The History of an Individual and their Remains After Death	105
4.4.1	A Brief History of Taphonomy	106
4.4.2	Taphonomic Influences to the Bone.....	107
4.4.2.1	Abiotic Factors.....	107
4.4.2.2	Biotic Factors.....	108
4.4.3	Human-Caused Taphonomy: Understanding that there are Cultural Factors that Affect Bone After Death.....	109
4.4.3.1	Violence	109
4.4.3.2	Mortuary Practice	110
4.4.3.3	Field or Laboratory Taphonomy	111
4.5	Summary.....	112
	References.....	113
5	The Mortuary Component and Human Remains.....	117
5.1	Mortuary Archaeology.....	118
5.2	Linking Mortuary Context with Human Remains	120
5.2.1	Best to Worst Case Scenarios	121
5.3	Mortuary Features.....	123
5.3.1	Interment Type	124
5.3.1.1	Inhumation: Primary	125
5.3.1.2	Inhumation: Secondary	125
5.3.1.3	Inhumation: Multiple	126
5.3.1.4	Cremation	126
5.3.1.5	Cultural Modification.....	127
5.3.1.6	Isolated Bones.....	127
5.3.2	Bone Concentrations.....	129
5.3.2.1	Ossuaries.....	129
5.3.2.2	Intentionally Disarticulated Assemblages	130
5.3.2.3	Massacres.....	130
5.3.3	Position, Orientation, and Dimensions	131
5.3.4	Grave Goods	131

5.3.5	Representativeness of the Mortuary Sample: Biases by Age, Sex, and Status.....	132
5.3.6	Ritual.....	133
5.3.6.1	Incorporating the Dead into Rituals and Ceremonies	134
5.3.6.2	Rituals Involving Manipulation of the Dead	135
5.3.6.3	Animal Graves, Animal Offerings, and Animal Companions.....	136
5.3.7	Spatial and Locational Information	136
5.3.8	Ancestor–Descendant Relationships and Perspectives.....	137
5.4	Ideology and Death.....	138
5.5	Case Study: La Plata Skeletal Analysis—How to Integrate the Different Levels of Analysis.....	138
5.5.1	The Osteological Findings.....	139
5.5.2	The Mortuary Context	141
5.5.3	Integrating Osteology and Mortuary Analyses, Ideology, and Culture.....	144
5.6	Summary.....	145
	References.....	146
6	Bioarchaeology of Individuals: Identity, Social Theory, and Skeletal Analysis	151
6.1	Theorizing Skeletal Indicators.....	152
6.2	The Individual Body or Body-Self	154
6.2.1	Shifting Rights and Responsibilities: The Importance of Estimating Age at Death and Sex and Gender	154
6.2.1.1	Brief Overview of Methods of Age Estimation and Sex Assignment	155
6.2.2	Kinship’s Role in Marriage, Trade, and Warfare: Assessing Ancestry or Biological Relatedness.....	156
6.2.2.1	Brief Overview of Methods of Assessing Ancestry and Biological Relatedness.....	157
6.3	The Social Body	158
6.3.1	Veneration of Loved Ones or Disposal of the Deviants: The Importance of Mortuary Context.....	158
6.3.2	Why Isn’t Everyone Healthy and Well Fed? What Nutrition Can Reveal About Inequality	159
6.3.2.1	Stature	159
6.3.2.2	Dental Health	160
6.3.2.3	Other Indicators of Nutritional Status.....	161
6.3.3	Inequality and Poor Health: Infection, Morbidity, and Early Death	162

6.4	The Political Body or Body Politic.....	162
6.4.1	Ancient Occupations: Captives, Warriors, Elites, and Slaves	163
6.4.1.1	Osteoarthritis and Degenerative Joint Disease	163
6.4.1.2	Robusticity.....	165
6.4.1.3	Entheses	165
6.4.2	From Domestic Violence to Feuds, Raids, and Warfare: Recognizing Trauma in the Past.....	167
6.5	Summary	168
	References.....	169
7	Bioarchaeology of Populations: Understanding Adaptation and Resilience	173
7.1	Relevance of Population Data.....	174
7.1.1	Adaptation of Populations to Stress.....	176
7.1.2	Chronologies of Pain: Reconstructing Health and Disease Profiles Over Long Periods of Time	177
7.1.3	Bioarchaeology of Disability and Community Care	179
7.2	Paleodemography.....	180
7.2.1	Age at Death and Life Table Analyses	181
7.3	Modeling the Effects of Stress and Change at the Population Level Using Skeletal Remains.....	183
7.3.1	Case Study: The People of the Mounds—Status and Inequality at Cahokia	184
7.3.2	Case Study: The Pueblo—Hardship and Poor Health in the American Southwest	186
7.3.3	Case Study: The Calusa—Complex Hunter-Gatherers of Spanish Florida.....	189
7.4	Summary	191
	References.....	193
8	Special Applications in Bioarchaeology: Taking a Closer Look.....	199

8.1.1	Destruction, Alteration, and Transformation: Ethical Considerations	200
8.1.2	Complex and Varied Perspectives of Descent Communities.....	202
8.2	Synopsis of Select Special Applications in Bioarchaeology	204
8.2.1	Histological and Cellular Analyses	204
8.2.1.1	Cross-Sectional Analysis	204
8.2.2	Molecular Analysis.....	205
8.2.2.1	Isotopic and Elemental Analysis	206
8.2.2.2	Genetic Analysis.....	208
8.2.3	Photographs and X-Rays	208
8.3	Summary	209
	References.....	210

9	Body as Material Culture	213
9.1	Ritual and Ritualized Behavior	214
9.1.1	Body Modification and Ornamentation	214
9.1.1.1	Artificial Cranial Deformation	215
9.1.1.2	Other Forms of Body Modification and Ornamentation	216
9.2	Ceremonial Warfare, Blood Atonement, and Revenge	217
9.2.1	Ceremonial Warfare	218
9.2.2	Human Sacrifice	219
9.2.3	Captivity and Torture	222
9.2.4	Massacre	223
9.2.5	Cannibalism	225
9.3	The Body as an Agent in the World	227
9.3.1	Ancestor Veneration	227
9.3.2	Trophy Taking	232
9.4	The Body as a Symbol and the Power of the Dead: Ethical Considerations	233
9.5	Summary	233
	References	234
10	Relevance, Education, and the Future	239

Bioarchaeology

An Integrated Approach to Working with Human
Remains

Martin, D.L.; Harrod, R.P.; Pérez, V.R.

2013, XVII, 262 p., Hardcover

ISBN: 978-1-4614-6377-1
