

Contents

1	Keyword Spotting Out of Continuous Speech	1
1.1	Introduction	1
1.2	Problem Formulation: KWS in Large Speech Databases	5
1.3	Target Applications of Keyword Spotting	6
2	Keyword Spotting Methods	7
2.1	LVCSR-Based KWS	7
2.2	Acoustic KWS	7
2.3	Phonetic Search KWS	8
2.4	Discussion: Why Phonetic Search?	9
2.4.1	Response Time	9
2.4.2	KWS Performance	10
2.4.3	Keyword Flexibility	10
3	Phonetic Search	13
3.1	The Search Mechanism	13
3.2	Using Phonetic Search for KWS	15
3.3	Computational Complexity Analysis	16
4	Search Space Complexity Reduction	19
4.1	Overview	19
4.2	Complexity Reduction in Phonetic Search	21
4.3	Anchor-Based Phonetic Search	23
5	Evaluating Phonetic Search KWS	29
5.1	Performance Metrics	29
5.2	Evaluation Process	32
5.3	Evaluation Databases	33
6	Evaluation Results	35
6.1	Exhaustive Search	35
6.1.1	Textual Benchmark	36

6.1.2	KWS on Speech	37
6.1.2.1	Single Threshold	37
6.1.2.2	Multiple Thresholds	38
6.2	Anchor-Based Search	39
6.2.1	Textual Benchmark	39
6.2.2	Reduced Complexity KWS on Speech	39
6.2.2.1	Single Threshold	39
6.2.3	Multiple Thresholds	42
6.3	Lessons Learned from the Evaluation	43
7	Summary	45
	Glossary of Acronyms	47
	References	49

Phonetic Search Methods for Large Speech Databases

Moyal, A.; Aharonson, V.; Tetariy, E.; Gishri, M.

2013, X, 53 p. 21 illus., 6 illus. in color., Softcover

ISBN: 978-1-4614-6488-4
