

# Contents

<b>Genomic Alterations in Sporadic Pancreatic Cancer .....</b>	<b>1</b>
Marco Dal Molin and Anirban Maitra	
<b>Molecular Pathology of Pancreatic Cancer Precursor Lesions .....</b>	<b>27</b>
Lodewijk A.A. Brosens and G. Johan Offerhaus	
<b>Genetic Epidemiology and Pancreatic Cancer .....</b>	<b>49</b>
Li Jiao and Donghui Li	
<b>Translational Implications of Molecular Genetics for Early Diagnosis of Pancreatic Cancer.....</b>	<b>75</b>
Michael A. Hollingsworth	
<b>The Biology of K-Ras Signaling Pathways in Pancreatic Cancer .....</b>	<b>83</b>
Helen Court, Mark R. Philips, and Dafna Bar-Sagi	
<b>Molecular Targeted Therapies in Pancreatic Cancer .....</b>	<b>117</b>
Edward Kim, Ethan V. Abel, Arunima Ghosh, and Diane M. Simeone	
<b>Mouse Models of Pancreatic Ductal Adenocarcinoma .....</b>	<b>145</b>
Filip Bednar and Marina Pasca di Magliano	
<b>The Genetics of Pancreatic Cancer Progression .....</b>	<b>171</b>
Christine A. Iacobuzio-Donahue	
<b>Epigenetic Alterations in Pancreatic Cancer.....</b>	<b>185</b>
Michael Ayars and Michael Goggins	
<b>Innovative Technologies in the Molecular Characterization of Pancreatic Cancer.....</b>	<b>209</b>
Iris H. Wei and Chandan Kumar-Sinha	
<b>Index.....</b>	<b>229</b>
