

# **Preface**

## **Welcome Message from the ICITES 2012 General Chairs**

On behalf of the organizing committee, we are pleased to extend our warmest welcome to all the participants of International Conference on Intelligent Technologies and Engineering System (ICITES 2012) at the National Changhua University of Education in Taiwan. The organizing committee has put forth an excellent technical program covering various aspects of Intelligent Technologies and Engineering Systems.

The primary objective of this conference is to bring together on a common platform academicians, researchers, application engineers, industry personnel, and the users of emerging intelligent technologies and engineering systems. Delegates and experts are invited to participate and present their work, and the conference will be of interest to a wide spectrum of professionals at all levels. The conference is intended to encourage and facilitate knowledge sharing, interactions, and discussions on future evolutions of new challenges in the twenty-first century. There will be keynote speeches, invited presentations, technical sessions, panel discussions, and local tours.

We have accepted 120 papers consisting of plenary sessions and technical sessions in which over 100 authors from several countries around the world will give their presentations. The organizing committee has tried its best to make the conference as comfortable as possible to all the participants.

We are grateful to the participants – in particular, those who organized sessions and presented papers. We would like to extend our sincere thanks to all the invited speakers, members of the organizing committee, review committee, local arrangement committee, and the persons from industries. We also would like to thank all the graduate and undergraduate students who are presenting their research work as well as volunteering to help in organizing this conference. We understand what it takes to put together an event such as this and would like to express our sincere thanks to all involved in the preparation of this conference. We also want to thank all of the colleagues and staff who worked on the conference technical program.

The success of this conference is due to those of you who planned and designed the technical program, participated in reviewing the manuscripts, coordinated the exhibit, and volunteered to moderate technical sessions.

We look forward to seeing you all again in the next conference.
